NOTES ON THE IMPERIAL TABLES.

1. All the Imperial Tables except Nos. I and II cover the whole population of 13,169,099 persons enumerated in the synchronous and non-synchronous areas, and exclude all estimated population-figures. Imperial Tables I and II include also 43,093 persons estimated as mentioned in Note 2 of Imperial Table I and so relate to 13,212,192 persons.

2. In all tables in which statistics are given by districts the province has been divided into two parts named Divisional Burma and the Eastern States. The latter includes the Federated Shan States and the Karenni States, while the former includes all the rest of the province. The administrative divisions in which the districts have been grouped in the tables are those which existed on the date of the synchronous census, namely, the 18th March 1921.

3. For the purposes of all the Imperial Tables the statistics given for the Rangoon Town District represent Rangoon Town itself, including the municipality, the cantonments and the port. The statistics given for Mandalay District always cover Mandalay City as well as the rest of the district; but generally separate figures for the city are also given.

4. All ages are stated in the tables in terms of fully completed years, and every age-group includes all who have reached its lower but have not yet reached its higher limit, *e.g.*, age-group 20-40 means all from age 20 to just not 40, and includes all who have completed 20 years but have not completed 40 years.

IMPERIAL TABLE I.

Area, Houses and Population.

NOTE 1.—The figures contained in this table represent the whole of the administered portion of Burma except that part of the Putao District which is not included in the eight Hkāmti Lōng Shan States or Fort Hertz; they include also the "unadministered" portion of the Pakōkku Hill Tracts. The areas omitted from the census and excluded from this table are—

- (1) All Putao District except the eight Hkāmti Lōng Shan States and Fort Hertz.
- (2) Unadministered territory associated with the Upper Chindwin District.
- (3) Unadministered territory associated with the Hill District of Arakan, but not yet assigned to any administrative division; bounded on the east by the Haka Subdivision of the Chin Hills District, on the North and West by the Lushai Hills and on the South by the Hill District of Arakan.
- (4) The uncontrolled portion of the Wa States.

NOTE 2.—All the figures in the table have been obtained by actual enumeration except in the areas shown in the following statement. In these an estimate was made by local officers on the basis of the number of houses and other available information.

District, etc.	Portion.	Estimate.			
		Number of houses.	Persons.	Males.	Females.
26 Pakōkku Hill Tracts	Unadministered territory.	1,802	8,756	4,207	4,549
35 Upper Chindwin ...	Somra Tract ...	1,834	7,636	3,719	3,917
41 Northern Shan States.	East Manglōn ...	4,855	26,701	13,527	13,174
Total Estimated Area ...		8,491	43,093	21,453	21,640

NOTE 3.—The figures given for the Upper Chindwin District include Kanti (or Singkaling Hkāmti) and Thangdut (or Hsawnghsup), which are two small Shan states situated in that district and administered by hereditary chiefs under the supervision of the Deputy Commissioner. Their total populations are 2,287 and 7,043 respectively.

NOTE 4.—The figures for each hill-tract are included in those for the district or state with which it is associated for administrative purposes.

NOTE 5.—Some of the entries for area given in column 2 of the table include estimates or approximations reached by rough surveys, and in some such cases revised figures have been adopted since the census of 1911. In some other cases area figures, although based on complete survey, have been changed by a revision of the survey or as a consequence of erosion or accretion by rivers. Some district boundaries and areas have been changed since 1911 by the transfer of land which in some cases had no population in 1911. If therefore a comparison with Table I of 1911 is made, Table II below should also be consulted.

NOTE 6.—In the Hill District of Arakan, the Chin Hills District, the Eastern States and all hill-tracts included in other districts, the figures in column 4 represent villages. In practically all the remainder of Burma they represent administrative units called village-tracts. (See Note 8 below.) The figures in column 4 for the Upper Chindwin District and the Northern Shan States do not include any figures for the estimated areas mentioned in Note 2 above although the other columns do cover these areas.

NOTE 7.—The figures in columns 3, 6, 9, 12 and 15 of the statement relate to a number of areas of an urban character arbitrarily selected and described as Census Towns for the purposes of Imperial Tables IV and V below. The selection includes all towns to which the Burma Towns Act applies and also all municipalities and notified areas and all cantonments, and some other areas in addition. Areas of an urban character which are not included are either smaller or less important than included areas or lack defined boundaries and administrative unity.

NOTE 8.—A village-tract is defined by law as the local area under the jurisdiction of a headman, including a village or group of villages and adjacent lands. In practice it may include no true village at all but only a number of small clusters of houses scattered through a comparatively extensive area. On the other hand a village may be shared by two or more village-tracts some of which may include parts or wholes of other villages. Some Census Towns include more than one village-tract or include parts of one or more village-tracts. In every such case, if the same area is not to be counted twice, the number of village-tracts shown in this table must differ from the correct number of statutory village-tracts which is shown in Provincial Table I. Imperial Table III agrees with the present table.

NOTE 9.—The definition of a house on which the numbers in columns 5 to 7 depend was ordinarily as follows:—

A *House* means the separate residence of a family. A residence is considered to be separate when it has a separate entrance from a common way.

If one building is jointly occupied by two or more families it should be treated as one house if the families share meals, but as two or more if they cook and eat separately.

Monasteries, Zayats, Schools, Godowns and Field Huts and all other buildings are to be included in the term *House* if used as dwelling-places, whether used at night or not. They must always be included if a watchman or durwan lives there.

In Rangoon Town and occasionally in other towns *house* was taken to mean a tenement; and this definition was generally substituted for the ordinary one for lodging-houses and coolie-lines and similar cases. Amongst some tribes in which there is a custom of building extensions of a house for all descendants of the original house-holder the term *house* was generally taken to mean the residence of the whole group of relations; this variation from the normal definition would only affect the figures in a few remote areas.

IMPERIAL TABLE II.

Variation in Population since 1872.

NOTE 1.—No census was taken in Upper Burma prior to 1891, nor in the Eastern States or the Pakōkku Hill Tracts or the Chin Hills District prior to 1901.

NOTE 2.—In columns 9 and 10 the figures for Total Variation in some lines of totals or sub-totals are not the sum of the figures given for the component parts of the corresponding area. This is due to the inclusion of the figures for the Chin Hills for the first time in 1901 and of the other districts of Upper Burma in 1891.

NOTE 3.—Two new districts have been created since the census of 1911. The Insein District has been formed of parts of the Hanthawaddy and Pegu Districts, and the Putao District has been established in hitherto unadministered territory north of the Myitkyina District.

NOTE 4.—Separate figures for Karenni are given here for the first time. In previous censuses they were included in those of the Southern Shan States.

NOTE 5.—In 1920 the Ruby Mines District was divided into two parts; the Mōngmit State, including the Kodaung and Ngadaung Hill Tracts, was transferred to the Northern Shan States and the remainder was added to the Katha District.

NOTE 6.—Except in the cases mentioned in Notes 7 and 13, the populations shown in the table for 1911 and previous years have been adjusted to correspond to districts as constituted on the 18th March 1921. The districts for which the figures now given differ from those given in the corresponding table of 1911 are shown below; there have been changes in the boundaries of other districts besides these, but the areas transferred were reserved forests or wild tracts without population:

7. Hanthawaddy.	24. Minbu.	38. Meiktila.
9. Pegu.	25. Magwe.	39. Yamethin.
18. Thatōn.	30. Katha.	40. Myingyan.
23. Pakōkku.	37. Kyauksè.	41. Northern Shan States.

In all cases, however, the figures given for a district in any year exclude all areas omitted from the census of that year. Notes 7 and 8 below give some particulars of such cases; for further information earlier census reports should be consulted.

NOTE 7.—The large increases shown in columns 11 and 13 for the whole province and for Thayetmyo District are due to the inclusion for 1891 of certain areas which were omitted from previous enumerations because they were outside British Burma. Similarly in column 10 for Bhamo and Katha Districts owing to the omission of certain areas from the census of 1891.

NOTE 8.—Columns 2, 8, 13, 14 and 20 of the table include increases to the extent shown below on account of extension of the area of enumeration in 1921 to include areas which were omitted from the enumeration of 1911:

in 1891 relate only to Mong Mit State; all other States omitted.

NOTE 10.—No areas enumerated in 1911 were omitted in 1921.

NOTE 11.—The areas omitted from the enumeration of 1921 were as follows:—

- (1) All Putao District except the eight Hkamti Lông Shan States and Fort Hertz.
- (2) Unadministered territory associated with the Upper Chindwin District.
- (3) Unadministered territory associated with the Hill District of Arakan, but not yet assigned to any administrative division; bounded on the east by the Haka subdivision of the Chin Hills District, on the north and west by the Lushai Hills and on the south by the Hill District of Arakan.
- (4) The uncontrolled portion of the Wa States.

NOTE 12.—The areas for which figures were obtained by estimation in 1911 or 1921 and the districts in which the corresponding figures are included in the table are shown in the following statement:—

DISTRICT.		Description of Area.	1921.				1911.

43	Pakòkku Hill Tracts.	Unadministered territory.	Estimated	8,756	4,207	4,549	Do.	9,123	4,478	4,645

* Karenni was included in the Southern Shan States in the Census Tables of 1911. The Brè Circle was known in 1911 as the Tuchaung East Circle, while the Wiwa Circle of 1921 includes both the Wiwa and the Tuchaung West Circles of 1911. The Brè and the Wiwa Circles of 1921 together constitute the area described for the census of 1911 as the Brè Tract.

NOTE 13.—In the case of Rangoon Town there is some doubt about the adjustment required for the years 1872 and 1881. The present Rangoon Town District consists of Rangoon Town and the Rangoon River down to its mouth, and the population recorded for it consists of persons in Rangoon Town and persons enumerated on ships which were in the river on the night of the census or arrived in Rangoon within 15 days of that date without having been enumerated at any other Indian port. The Rangoon Town of 1891 differed from this by excluding a land area which had in that year a population of 1,756. The same area (and perhaps other areas) was excluded in 1872 and 1881, but it is not possible to discover the corresponding excluded population in those years for which therefore the population shown in the table for the Rangoon Town District is really that of Rangoon Town as it was constituted in those years. Any population which may have been in 1872 or 1881 on the area subsequently taken into Rangoon Town has thus been included in the figures of those years for the Insein and Hanthawaddy Districts.

IMPERIAL TABLE III.

Village-tracts and Census Towns Classified by Population.

NOTE 1.—Except as indicated in Note 2 below this table deals with village-tracts and not with villages. A village-tract is defined by law as the local area under the jurisdiction of a headman, including a village or group of villages and adjacent lands. In practice it may include no true village at all but only a number of small clusters of houses scattered through a comparatively extensive area. On the other hand a village may be shared by two or more village-tracts some of which may include parts or wholes of other villages. Some Census Towns (*see* Note 3 below) include more than one village-tract or include parts of one or more village-tracts. In every such case, if the same area is not to be counted twice, the number of village-tracts shown in this table must differ from the correct number of statutory village-tracts which is shown in Provincial Table I. Imperial Table I agrees with the present table.

NOTE 2.—For the Hill District of Arakan, the Chin Hills District, the Pakòkku Hill Tracts, the Eastern States and in all hill-tracts included in other districts, the figures given in columns 2, 4, 6, etc., represent villages. For other areas there is no record of the number of villages available; but the numbers of villages which have more than 40 or more than 100 houses are shown in Provincial Table I of this volume.

NOTE 3.—The *Census Towns* are a number of areas of an urban character arbitrarily selected and described as Census Towns for the purposes of Imperial Tables IV and V below. The selection includes all towns to which the Burma Towns Act applies and also all municipalities and notified areas and all cantonments, and some other areas in addition. Areas of an urban character which are not included are either smaller or less important than included areas or lack defined boundaries and administrative unity.

NOTE 4.—The description *Adventitious Population* in the last column of the table includes all persons who were not enumerated as residents of a village-tract or town. The term thus includes—

- (1) the inmates (not the staff) of jails, reformatories, hospitals, lunatic or leper asylums,
- (2) the inhabitants of military areas or of military police lines,
- (3) travellers enumerated in boats or trains or at railway stations or in camps or travelling on roads on which travellers were comparatively numerous, and all persons on boats and ships in ports who were not local shore residents,
- (4) persons (not local residents) assembled at a pagoda festival,
- (5) residents in such forest reserves (or other areas) as are not included in the ordinary village-tract administrative system nor in recognised forest villages,
- (6) railway construction camps,
- (7) other classes of persons enumerated away from home either in groups simultaneously assembled or at points where the number of such persons appearing successively justified the appointment of a special enumerator.

Visitors staying in hotels, etc., or with friends in private houses were treated as residents, as also were occasional travellers at places at which the appointment of special enumerators as described in item (7) above was not required.

NOTE 5.—The adventitious population shown in the last column of the table is excluded from the figures in columns 5 to 21. All Census Towns are thus classified according to their Normal Civil Population as shown in Part II of Imperial Table V.

NOTE 6.—The table covers the whole area of actual enumeration but does not take any account of the areas described in Notes 1 and 2 of Imperial Table I in which either an estimate was made without actual enumeration or no census was taken at all. For this reason the figures in column 2 for the Pakòkku Hill Tracts (and for all areas including these) differ from the corresponding figure of Imperial Table I.

IMPERIAL TABLE IV.

Variation since 1872 of the Population of Census Towns.

NOTE 1.—The *Census Towns* are a number of areas of an urban character arbitrarily selected and described as Census Towns for the purposes of Imperial Tables IV and V. The selection includes all* towns to which the Burma Towns Act applies, and also all municipalities and notified areas and all cantonments, and some other areas in addition. Areas of an urban character which are not included are either smaller or less important than included areas or lack defined boundaries and administrative unity. In the present table the Census Towns are arranged in descending order of magnitude according to population.

NOTE 2.—The name of No. 21 is shown as Allanmyo, that being the name generally used by the Local Government; the municipal committee however uses the name Allanmyo-Ywataung for the same area.

NOTE 3.—In column 3, M is shown against towns which are Municipalities and N against those which are Notified Areas; T is shown against those which are administrative towns under the Burma Towns Act; C is shown against those which have a cantonment associated with them.

NOTE 4.—Zalun, Lemyethna, Sinbyugyun and Kindat, which were included in Table IV of 1911, have been excluded from the table.

NOTE 5.—The following towns have now been included in the table for the first time:—

35. Thongwa.	56. Mawlamyaing-	68. Yawnghe.	75. Myitngè.
40. Namtu-Panghai.	gyun.	70. Hsipaw.	76. Kalaw.
42. Nyaunglebin.	58. Taunggyi.	71. Minhla.	77. Ye-u.
46. Zigôn.	60. Kengtung.	73. Tharrawaddy.	78. Mawlaik.
53. Pyu.	65. Nattalin.	74. Lashio.	79. Loilem.

No. 52, Kawkareik, which was omitted from the table of 1911, has also been included again.

NOTE 6.—The figures given for each town in this table include both the Normal Civil Population and the Adventitious Population as defined in Note 1 of Imperial Table V. The portion belonging to each of these classes in 1921 is shown by Parts II and III of that table.

NOTE 7.—The figures given for each town at each successive Census represent the population of the area recognized as the town at the census dates.

In this respect the figures for Rangoon Town for 1901 and 1891, but not earlier years, differ from the corresponding figures shown in Table IV of the census of 1911, which had been adjusted to correspond to the area occupied by the Town in 1911, which was the same as that occupied by it in 1921; the population of that area in 1901 was 174,587 males and 70,843 females; in 1891 it was 126,001 males and 56,179 females.

The boundaries of Mandalay City have not been changed since 1891 except in 1917 when an area was added which in 1921 included 141 males and 83 females.

NOTE 8.—Figures for the population of Cantonments and Ports are included in those given in this table for the respective towns with which they are associated, but are shown separately in Note 16 on page 16. The names of such towns are marked with an asterisk in column 1.

NOTE 9.—The towns are grouped in classes according to their magnitude in 1921. Except for 1921 the totals given for each class in the various columns do not correspond to the specific towns which belonged to that class in 1921 but represent the total population enumerated at each census in towns of that magnitude. The same applies to the second line of the table.

NOTE 10.—As in the table of 1911 the figures given for No. 36 Pyapôn include the population of the Municipality and also that of the Civil Station which is outside although adjacent to the municipality and is also not subject to the Burma Towns Act although the municipality is. Figures for the civil station are given in the table of Note 16 on page 16.

NOTE 11.—The separate populations of Namtu and Panghai (see No. 40), which, though they form at present separate administrative units in different Shan states, make up a single block of residences, are also given in Note 16 on page 16.

NOTE 12.—At the census of 1901 the populations of railway premises were omitted in compiling the figures for the following towns. In the present table corrections have been made for this, and accordingly the figures shown in it for these towns for 1901 differ from those shown for the same year in the census tables of 1901 and 1911:—

10. Toungoo.	33. Shwebo.	41. Gyobingauk.
11. Myingyan.	35. Letpadan.	51. Thônzè.
20. Sagaing.	39. Amarapura.	73. Tharrawaddy.

NOTE 13.—Similarly a correction has been made for the population in 1911 of No. 55 Myaungmya by excluding the population of the jail which is outside the town.

NOTE 14.—See also Notes 15 and 16 on page 16.

* It is not certain whether the Act applies to Zalun, which has been omitted (see Note 4).

NOTE 15.—The figures given for No. 39 Bhamo in 1921 exclude passengers on steamboats which reached the town the morning after the census; this was probably but not certainly the case also in 1911. Similarly the figures given for No. 67 Pyawbwe in 1921 exclude 532 males and 220 females in the military police lines, for which the corresponding figures were probably but not certainly included in 1911; these lines are outside the town.

NOTE 16.—The following table gives details for the cantonments and ports associated with certain towns and for divisions of Pyapon and of Namtu-Panghai. (See Notes 8, 10 and 11 above.) For 1921, the description *Port* corresponds throughout to persons enumerated in vessels within the limits of the port (which may extend beyond the limits of the town) and excludes all enumerated on shore; it is believed the same holds good for earlier years. The division of the Rangoon Cantonment is into civil and military areas, not civil and military population; and all compounds of military quarters are included in the military area. In the case of Mandalay the whole of the Fort, including the jail and other areas not associated with military purposes, is regarded as a military area. Maymyo and Meiktila Cantonments include only purely military areas. In the case of Thayetmyo the figures given for the Sudder Bazaar include all the Cantonment except the military lines; in 1921 there was no longer any garrison. At Shwebo also there was no longer any garrison in 1921. Bhamo Cantonment in 1921 included a civil area which had a population of 258 persons, of whom 154 were males and 104 females.

Remainder	115,136	75,674	39,462

† It should be noted that some lands were transferred between the Cantonment and Municipality in 1887, 1901, 1902, 1905, 1907, 1908 and 1910.

† These figures for the *Remainder* of Akyab Town include 5,307 males chiefly employed in rice mills who were only present temporarily and proposed to leave the town shortly after the Census.

IMPERIAL TABLE V.

Population of Census Towns classified by Religion.

NOTE 1.—In all the three parts in which this table has been constructed the census towns tabulated in Imperial Table IV (and defined in Note 3 of that table) have been arranged according to the division and district in which they are situated. In Part I the population shown for each town in 1921 in Imperial Table IV is classified by religion. These numbers include not only persons actually present in the town on the night of the census but also some persons who although they did not reach the town at any time that night were enumerated in some special circumstances, e.g., as travellers in boats or trains, which resulted in the record of the enumeration being collected, according to the usual custom, with those of the town. In Parts II and III the numbers tabulated in Part I are tabulated again after division into two parts described as the *Normal Civil Population* and *Adventitious Population* respectively. The latter term includes all population of the classes described in Note 4 of Imperial Table III, of which the following are the most important in census towns—

- (1) the inmates (not the staff) of jails, reformatories, hospitals, lunatic or leper asylums,
- (2) the inhabitants of Military Areas or of Military Police Lines,
- (3) travellers enumerated in boats or trains or at railway stations or in camps or travelling on roads on which travellers were comparatively numerous, and all persons on boats or ships in ports who were not local shore residents,
- (4) persons (not local residents) assembled at a pagoda festival,
- (5) In the case of Akyab town the male temporary immigrants present in the town on the date of the census, numbering 2,483 Hindus and 2,724 Mahomedans.

Visitors staying in hotels, etc., or with friends in private houses have been included in the Normal Civil Population.

NOTE 2.—In Part I of the table the classification is strictly by religion; but in Parts II and III all persons of Christian races have been tabulated as Christians whether they profess the Christian religion or not. The numbers of such persons are as follows:—

NOTE 3.—In Part I separate figures are given for every religion; a few religions have been grouped under the heading *Other Religions* in columns 40, 41 and 42, but details of these are given on page 22. In Parts II and III all the religions of comparatively few adherents are grouped together under the description *Others*.

NOTE 4.—The serial numbers in column 2 (a) of Part I are taken from column 2 of Imperial Table IV and therefore indicate the position of each town in the descending order of magnitude. In the last column of the same table are given the serial numbers of Parts II and III.

NOTE 5.—Notes 1 to 9 inclusive and Note 15 prefixed to Imperial Table IV apply to this table, except as regards the order in which the towns are shown.

NOTE 6.—The populations of Cantonments are included in those of the town with which they are associated but are separately tabulated on page 22. The towns concerned are indicated by C in column 3. In this connection Note 16 of Imperial Table IV should be consulted.

IMPERIAL TABLE VI-A.

Religion.

NOTE 1.—Table VI-A classifies by religion the population actually enumerated throughout the province, and omits, besides the population of the areas shown in Note 11 of Table II as entirely omitted from the Census, the population of the following areas in which no complete enumeration was made but only an estimate:—

	Administration.	Description of Area.	Persons.	Males.	Females.
26	Pakōkku Hill Tracts	Unadministered Territory.	8,756	4,207	4,549
35	Upper Chindwin District.	Somra Tract	7,636	3,719	3,917
41	Northern Shan States	East Manglun ...	25,701	13,527	13,174

The succeeding table, numbered VI-B, classifies according to race the adherents shown in the present table for each of the principal religions, and for some races distinguishes those born in Burma from those born elsewhere. A later table, XIII, classifies by religion the population of each race.

NOTE 2.—Details for the various religions represented by columns 38, 39 and 40 of this table under the heading *Remainder* are given in a subsidiary table on page 26.

NOTE 3.—In this table the classification is strictly by religion, in which respect it differs from the corresponding table of the census of 1911, in which the figures given for Christians included, besides all Christians, all non-Christian members of Christian races; but, with the aid of Note 2 prefixed to the table of 1911, comparison with the present table can easily be made. (Allowance should be made however for ten European Buddhist males tabulated in Table VI of 1911 as Buddhists but omitted from Note 2 of that table.) Non-Christian members of Christian races included in the figures for each religion in the present table are as shown in the sub-table below. Of these 2 male Agnostics and 9 male Buddhists in Rangoon, 1 male Freethinker and 2 male Buddhists in Hanthawaddy, and all the female Buddhists described themselves as Anglo-Indian by race; while all the others returned a European or allied race (as defined in Note 1 of Imperial Table XVI).

IMPERIAL TABLE VI-B.

Religion with further Classification by Race and Birthplace.

NOTE 1.—This table divides according to broad racial classes the figures of Imperial Table VIA for the Buddhist, Animist, Hindu, Sikh, Arya, Brahmo and Mahomedan religions and further classifies the persons of some of these classes according as they were born in Burma or elsewhere. Regarding other religions Note 2 below should be consulted.

NOTE 2.—The Confucians tabulated in Imperial Table VIA were all Chinese. For Christians a racial classification is given by Imperial Tables XV and XVI, further details for some races being given in Imperial Table XIII. The others omitted from the table are the Jains, Jews, Shintoists, Zoroastrians, Unitarians, Agnostics, Atheists, Freethinkers and Theosophists, amounting in all to 1,754 males and 993 females.

NOTE 3.—For details regarding the separate races included in the headings of the several columns of this table reference should be made to Imperial Table XIII.

NOTE 4.—Part V of Imperial Table XIII exhibits in another way the relation between religion and race for the province as a whole.

NOTE 5.—The non-Christian Europeans and Anglo-Indians who are the subject of Note 3 of Imperial Table VIA are classified in this table, as in that, according to their personal religion.

NOTE 6.—The census town of Rangoon is the same as Rangoon Town District.

NOTE 7.—The figures given in this table for Mandalay District include the corresponding figures for Mandalay City which are given immediately below them and are related in the manner described in Note 1 above to the figures for Mandalay City in Imperial Table V.

* Mahomedan Kamans in Akyab District number 556 M. and 541 F.; in Kyaukpyu District 484 M. and 578 F.; in Sandoway District 4 M. only; in other districts *nil*.

† The total figures for Mahomedan Malays are 2,202 M. and 2,484 F.; these were chiefly found in Mergui District where all the persons shown in columns 38 and 39 belong to this class.

IMPERIAL TABLE VII-A.

Age, Sex, and Civil Condition by Religion.

NOTE 1.—This table is in three parts. Part I gives (subject to Note 4 below) the distribution by age and civil condition of the totals of each religion tabulated in Table VI-A. Parts II and III give similar statistics for Divisional Burma and for the Eastern States respectively, the religions with few adherents being collected in these parts under the description *Others*. The *Eastern States* include the Northern and Southern Shan States and Karenni; *Divisional Burma* includes all the remainder of the province.

NOTE 2.—For all three parts of the table the areas and populations excluded are those excluded from Table VIA, namely those in which the census was by estimate only.

NOTE 3.—The age recorded was the number of completed years. The age-group represented by 5—10 in the table includes all who had completed five but had not yet completed ten years of age; and the other age-groups have a parallel interpretation.

NOTE 4.—Amongst the adherents of some religions were found a few persons for whom the age was not clearly specified. By the records relating to marriage, literacy and occupation most of these could be assigned to classes in which the range of age was limited in one direction or the other. Each class was then distributed amongst the age-groups for whom the age had been specified. In every case the numbers distributed were too small to have any significant effect upon the table.

NOTE 5.—The figures given in columns 11, 12 and 13 of the table under the heading *Widowed* include persons described as divorced and not re-married as well as those described as widowed.

NOTE 6.—In this table all persons belonging to Christian races as well as all professing the Christian religion are included under the description *Christian*. (See Note 3 of Table VIA.)

NOTE 7.—Separate figures are given for Hindus born in Burma and for Hindus born outside Burma; both of these are included in the figures given for Total Hindus. Similarly for Mahomedans.

NOTE 8.—Imperial Table XIV gives similar statistics by races instead of by religions. Table VIIB which follows this table immediately gives for each district and for the three parts of the Eastern States statistics similar to those of Parts II and III of this table. Similar statistics for the larger towns are given in Provincial Table V; for Buddhists alone similar statistics for the separate townships into which each district is divided are given in Provincial Table III; and similar statistics for selected races are given for some townships or districts in Provincial Table IV. For Europeans, Anglo-Indians and Armenians statistics for sex and age are given in Imperial Table XVI. Imperial Tables VIIA and XIII show relationships between religion and race.

IMPERIAL TABLE VII-B.

Age, Sex and Civil Condition in each District, etc., by Religion.

NOTE 1.—This table gives for each district and for the three parts of the Eastern States statistics similar to those of Parts II and III of Imperial Table VIIA. In every district it relates to the same area and population as that table, thus excluding all areas in which the census was by estimate only, but no others.

NOTE 2.—Rangoon Town constitutes a district and statistics are given for it accordingly as for other districts.

NOTE 3.—The figures given for Mandalay district include those of Mandalay City which are given separately immediately below them.

NOTE 4.—The age recorded was the number of completed years. The age-group represented by 5—10 in the table includes all who had completed five but had not yet completed ten years of age; and the other age-groups have a parallel interpretation.

NOTE 5.—Amongst the adherents of some religions were found a few persons for whom the age was not clearly specified. By the records relating to marriage, literacy and occupation most of these could be assigned to classes in which the range of age was limited in one direction or the other. Each class was then distributed amongst the age-groups in its range in proportion to the numbers in those groups for whom the age had been specified. In every case the numbers distributed were too small to have any significant effect upon the table.

NOTE 6.—The figures given in columns 11, 12 and 13 of the table under the heading *Widowed* include persons described as divorced and not re-married as well as those described as widowed.

NOTE 7.—In this table all persons belonging to Christian races as well as all professing the Christian religion are included under the description *Christian*. (See Note 3 of Table VIA.)

NOTE 8.—The figures given in each district for Hindus or Mahomedans born in Burma are included in those given for Total Hindus or Total Mahomedans. Separate figures are not given as a rule for Hindus or Mahomedans born outside Burma.

NOTE 9.—In some cases in which only few persons are concerned the length of the table has been reduced by omitting the details for separate age-groups of a religion and showing only the totals for all ages of each sex and civil condition.

NOTE 10.—Similar statistics for the larger towns are given in Provincial Table V; for Buddhists alone similar statistics for the separate townships into which each district is divided are given in Provincial Table III; and similar statistics for selected races are given for some townships or districts in Provincial Table IV. For Europeans, Anglo-Indians and Armenians statistics for sex and age are given in Imperial Table XVI. Imperial Tables VIIA and XIII show relationships between religion and race.

IMPERIAL TABLE VIII-A.

Literacy by Religion and Age.

NOTE 1.—This table is in four parts. Subject to Note 4 below, Part I divides into five age-groups and also into literate and illiterate the totals of each religion tabulated in Table VIA; further, the number included amongst the literate in each age-group who are literate in English is shown. Parts II and III give similar statistics for Divisional Burma and for the Eastern States respectively, the religions with few adherents being collected in these parts under the description *Others*; the *Eastern States* include the Northern and Southern Shan States and Karenni; *Divisional Burma* includes all the remainder of the province. Part IV gives for the whole province an analysis by age and race of the Christian population literate in English.

NOTE 2.—For all four parts of the table the areas and populations excluded are those excluded from Table VIA, namely those in which the census was by estimate only.

NOTE 3.—The age recorded was the number of completed years. The age-group represented by 5—10 in the table includes all who had completed five but had not yet completed ten years of age; and the other age-groups have a parallel interpretation. Persons whose age had not been clearly specified in the record of the enumeration have been assigned to the same age-group as for Imperial Table VIIA—See Note 4 on the title-page of that Table.

NOTE 4.—In this table all persons belonging to Christian races as well as all professing the Christian religion are included under the description *Christian*. (See Note 3 of Table VIA.)

NOTE 5.—Separate figures are given for Hindus born in Burma and for Hindus born outside Burma; both of these are included in the figures given for *Total Hindus*. Similarly for Mahomedans.

NOTE 6.—The term *Literate* means able both to read and to write "a letter to or from a friend" in the language with regard to which the term is used. The figures for *Literate* in columns 6, 7 and 8 include all literate in any one or more languages whatsoever, and in particular include those literate in English who are shown separately in columns 12 to 14.

NOTE 7.—Imperial Table IX gives similar statistics by races instead of by religions. Table VIIIB, which follows this table immediately, gives for each district and for the three parts of the Eastern States statistics similar to those of Parts II and III of this table. Similar statistics for the larger towns are given in Provincial Table VIII; for Buddhists alone similar statistics for the separate townships into which each district is divided are given in Provincial Table VI; and similar statistics for selected races are given for some townships or districts in Provincial Table VII. Imperial Tables VIB, XIII, XV and XVI show relationships between religion and race.

**TABLE VIII-A, PART IV.—CHRISTIANS LITERATE IN ENGLISH
CLASSIFIED BY AGE IN FOUR RACE-GROUPS.**

In this table Christians are divided by race into four classes which are denoted in the column-headings by the symbols AOS, X, Y, RZ, taken from the notation of the system of classification used in Imperial Table XIII. The meanings of the symbols in the terms of that notation are as follows:—

AOS.—Indigenous races (that is, all races of Groups A to O inclusive) and also the Indo-Burman races (which form Group S and include Zerbadis).

X.—Indian and allied races; that is, all races of Group X.

Y.—Christian races; that is, all races of Group Y, namely, European and allied races, Anglo-Indians and Armenians.

RZ.—All others; that is, Chinese (Group R) and the races of Group Z.

NOTE.—The terms *Indian*, etc., above have not the meanings assigned to them in the electoral scheme of 1922.

	Age-Group.	The whole Province.				Rangoon Town.				Mandalay City.				Remainder of Divisional Burma.				Eastern States.

IMPERIAL TABLE VIII-B.

Literacy in each District by Religion and Age.

- NOTE 1.—This table gives for each district and for the three parts of the Eastern States statistics similar to those of Parts II and III of Imperial Table VIIIA. In every district it relates to the same area and population as that table, thus excluding all areas in which the census was by estimate only, but no others.
- NOTE 2.—Rangoon Town constitutes a district and statistics are given for it accordingly as for other districts.
- NOTE 3.—The figures given for Mandalay District include those of Mandalay City which are given separately immediately below them.
- NOTE 4.—The age recorded was the number of completed years. The age-group represented by 5—10 in the table includes all who had completed five but had not yet completed ten years of age; and the other age-groups have a parallel interpretation.
- NOTE 5.—In this table all persons belonging to Christian races as well as all professing the Christian religion are included under the description *Christian*. (See Note 3 of Table VIA.)
- NOTE 6.—The figures given in each district for Hindus or Mahomedans born in Burma are included in those given for the descriptions *Hindu* and *Mahomedan* respectively. Separate figures are not given for Hindus or Mahomedans born outside Burma.
- NOTE 7.—In some cases in which only few persons are concerned the length of the table has been reduced by omitting the details for separate age-groups of a religion and showing only the totals for all ages of each sex.
- NOTE 8.—The term *Literate* means able both to read and to write "a letter to or from a friend" in the language with regard to which the term is used. The figures for *Literate* in columns 5, 6 and 7 include all literate in any one or more languages whatsoever, and in particular include those literate in English who are shown separately in columns 11 to 13.
- NOTE 9.—Similar statistics for the larger towns are given in Provincial Table VIII; for Buddhists alone similar statistics for the separate townships into which each district is divided are given in Provincial Table VI; and similar statistics for selected races are given for some townships or districts in Provincial Table VII. Imperial Tables VIb, XIII, XV and XVI show relationships between religion and race.

IMPERIAL TABLE IX.

Literacy by Race.

NOTE 1.—This table supplements Imperial Tables VIIIA and VIIIB which show literacy by religion, and is presented in three parts:—

Part I shows for each sex of certain classes defined by race and religion the total numbers enumerated in the province and the numbers included therein who were literate in any language whatsoever or were literate in English.

Part II shows the number of persons literate in any language whatsoever in separate age-groups of certain classes defined by race and religion and place of enumeration.

Part III gives statistics similar to those of Parts I and II for samples of the six Indian races most largely represented in Burma.

NOTE 2.—The classes shown in Parts I and II of the table are not necessarily the most literate; some less literate classes have also been chosen for which the statistics were likely to be of use. In Part II the districts selected for each class are such as would give a representative sample of that class; in the case of the Karens twelve districts shown in the table have been selected in which one or other kind of Karen is numerous, and statistics have been given for each kind throughout all those districts. In Part III the samples represented are those for whom statistics of birth-place are given in Imperial Table XIB, and the title-page of that table should be consulted for particulars.

NOTE 3.—The term *Literate* means, as in Imperial Tables VIIIA and VIIIB, able both to read and to write "a letter to or from a friend" in the language with regard to which the term is used. In Parts I and III the persons shown as *Literate in English* are also included amongst those shown as *Literate in any language*.

NOTE 4.—The letters and numbers prefixed to the names of race-groups and races in the first column of the table are the group-letters and numbers assigned to each in Imperial Table XIII and serve to identify them in that table.

NOTE 5.—The age recorded was the number of completed years. The age-group represented by 5—10 in the table includes all who had completed five but had not yet completed ten years of age; and the other age-groups have a parallel interpretation.

NOTE 6.—Neither for the total nor for the illiterate in each age-group are statistics given in this table; but for every sample tabulated in Parts II and III the total number of persons in any age-group is shown in Imperial Table XIV, in which all samples are identical with samples in this table similarly described as to race, religion and district of enumeration, and the illiterate or the proportion of literate in each age-group can thus be calculated when required.

NOTE 7.—Similar statistics are given for certain races in some districts separately in Provincial Table VII. Imperial Tables VIA, VIB and XIII show also that in some districts one or other religion is almost confined to one race, so that the statistics given in Imperial Table VIIIB for those districts and that religion may be regarded with sufficient accuracy as proportional statistics for that race.

IMPERIAL TABLE IX, PART I.—*Literacy amongst Selected Race-groups and Races.*

[NOTE.—The figures of this part of the table in all cases cover the whole province.]

IMPERIAL TABLE X.

Language.

- NOTE 1.—The area and population covered by this table are the same as those covered by Imperial Table VI-A, so that the areas (indicated in Note 1 of that table) in which the population was only estimated have been omitted from it.
- NOTE 2.—Persons who speak more than one language have been entered only as speakers of that language which they returned in the enumeration schedules as the language they ordinarily used in their homes.
- NOTE 3.—The languages returned have been collected into four classes as *Indigenous, Indian, European* and *Other Languages*.
- NOTE 4.—No attempt has been made to classify in accordance with any accepted linguistic scheme the languages included under the last three names, the meanings of which are defined by Part IB of the table which gives a list of the separate languages included under each and the numbers of their speakers.
- NOTE 5.—The indigenous languages have been arranged according to the best available information into groups, branches, sub-families and families as shown in Parts IA and IB of the table, which also show the number of speakers of each language and the total number of speakers of languages of each group or higher class.
- For convenience in reference and indexing the letters A to O inclusive have been used to represent the groups of indigenous languages other than Chinese which is represented by R. The *Indian, European* and *Other* classes are similarly treated for convenience as artificial groups and represented by the letters X, Y and Z respectively. The letter corresponding to each group is shown in Part IA of the table. S is used in Imperial Table XIII to include the Zerbadis, the Arakan-Mahomedans and the Arakan-Kamans, but it does not appear in this table as these races have not separate languages.
- For further information with regard to the classification scheme the Report Volume should be consulted.
- NOTE 6.—Part IB shows in its *Remarks* column the districts in which are found speakers of some indigenous languages which are spoken over only a small area and for which more detailed information is not given in Part III of the table. In addition it gives, in italics, for some languages, other names which are in some cases alternative names of the same language and in other cases names of dialects of that language; further study may in some cases require some dialects to be regarded as separate languages, but generally such division has been avoided where not particularly required. The addition of * or † to a name has the same meaning as in Part IC (See Note 7).
- NOTE 7.—Part IC is an alphabetical index of the various names of languages and dialects designed to show where in Part IB the speakers of each indigenous language or dialect are tabulated. To make this index serve the purposes of Imperial Table XIII also, some names are included which are used only for races and not for languages. Such names are marked with an *, while names which are used for languages but not for races are marked with a †. Some names however which are properly used only to designate a race or tribe have been used by some people to designate a language or *vice versa*.
- NOTE 8.—Part II gives the distribution by districts of the total speakers of languages of each class and of each indigenous group and also of speakers of English, and at the same time classifies the whole population of each district according to the group to which their languages belong.
- NOTE 9.—Part III gives the distribution by districts of the speakers of the most important and widely spread languages of the indigenous class.
- NOTE 10.—The form of Imperial Table XIII has been made parallel to that of this table to facilitate the extraction of corresponding figures for race and language. It should however be noted that, while Chinese (R) has been regarded as an indigenous language-group, none of the races of the Chinese group has been treated as an indigenous race.

IMPERIAL TABLE XI-A.

Birth-places.

NOTE 1.—This table classifies by birth-place the whole population actually enumerated throughout the province, and omits only the population excluded from Imperial Table VIA, namely the areas entirely omitted from the census and those in which the population was by estimate only. The total estimated population of the latter areas was 43,093; further details of them are given in Note 1 of Imperial Table VIA.

NOTE 2.—The table is in three parts; Part I constitutes the main table to which Parts II and III are appendices.

Part I.—In constructing Part I the whole tabulated population of the province and of each district has been divided by birth-place into eight classes, of which the first seven, lettered A to G in column 1, correspond to the seven parts into which the whole world has been divided for this purpose and the eighth class (H) includes persons whose birth-place was not recorded or could not be identified. Class A, which includes all born in India or Burma, has been divided further to correspond to parts of India according to the following scheme:—

A-I.—Burma,

A-II.—Other British Provinces and Indian States,

(a) Contiguous Provinces and associated states—

(i) Provinces; (ii) States;

(b) Non-contiguous Provinces and all other states—

(i) Provinces; (ii) States.

A-III.—French and Portuguese Settlements;

A-IV.—India (without further specification in the record).

In sub-class A-II (b) details have been separately shown only for those provinces and states to which considerable figures correspond, and the totals of these entries do not make up the total of the sub-class; the balances are accounted for in Section A of Part II of the table. For some provinces in both parts of Class A-II separate figures are given in italics for the districts which make the largest contributions to the figures given for the province; these also do not make up the totals for the provinces, but the balances are accounted for in Section B of Part II. Similarly in Classes B, C, E the details given in ordinary type for certain areas do not make up the totals of the classes; the balances are accounted for in Section A of Part II. Corresponding to each birth-place tabulated in Part I are shown in successive columns the number of persons enumerated in the whole province, Divisional Burma, the Eastern States and in each separate district (or other ordinary unit of tabulation). The figures given in the columns for Mandalay District include those for persons enumerated in Mandalay City which are given in the columns immediately following them. For the purposes of this table the town of Rangoon is the same as the Rangoon Town District.

In *Part II* are given some miscellaneous statistics supplementing those given in Part I for Classes A-II, B, C and E.

In *Part III* the persons of each area of enumeration shown in Part I as born in Burma are classified according to the district (or other ordinary unit of tabulation) of birth.

NOTE 3.—Imperial Table XIb gives statistics of the birth-places of Indians of certain races.

IMPERIAL TABLE XI-B.

Birth-places of Indians of Selected Races.

NOTE 1.—Part I of this table shows by provinces the birth-places of (i) all Hindus and Animists and (ii) all Mahomedans of the six Indian races most numerous represented in Burma who were enumerated in the following thirteen districts: Akyab, Rangoon, Insein, Hanthawaddy, Pegu, Bassein, Myaungmy, Pyapön, Toungoo, Thatön, Amherst, Mandalay and Yamèthin. The six selected Indian races are shown in Note 3 below.

NOTE 2.—Parts II, III, IV and V expand to show details for separate districts of birth the statistics given for some classes in Part I. The classes treated in each part are as follows:—

- II. Persons of each selected race born in Burma.
- III. Bengalis and Chittagonians born in Bengal.
- IV. Hindustanis born in the United Provinces.
- V. (i) Oriyas born in Madras or in Bihar and Orissa.
- (ii) Tamils and Telugus born in Madras.

NOTE 3.—The total numbers in the province of all Indian races and of the six selected races are shown in Imperial Table XIII as follows:—

IMPERIAL TABLE XII.

Infirmities.

NOTE 1.—This table is arranged in three parts as follows:—

Part I, Distribution by Age.

Part II, Distribution by Districts.

Part III, Distribution by Race-groups and Races.

NOTE 2.—Cognisance was taken in the enumeration of only the four infirmities specified in the tables; but for every person enumerated, whether in a synchronous or non-synchronous area, a record was made whether any or none of these infirmities was present. The population in which the tabulated infirmities appeared is therefore the whole of that shown in Imperial Tables VIIA, VIA and XIII which thus provide a basis of comparison for the several parts of this table. The areas for which no record of infirmities was made are the estimated areas and the areas omitted entirely from the census; these are shown in Notes 13 and 12 respectively of Imperial Table II.

NOTE 3.—Subsidiary tables on page 186 show particulars relating to persons afflicted with more than one of the tabulated infirmities. Such persons are counted once for each infirmity in all three Parts of the table except in the columns of Parts I and II which show *Persons Afflicted*; in those columns each such person is shown only once.

NOTE 4.—The age recorded was the number of completed years. The age-group represented by 5-10 in Part I of the table includes all who had completed five but had not yet completed ten years of age; and the other age-groups have a parallel interpretation.

NOTE 5.—Deductions drawn from the figures of Part II of the table must allow for the fact that the numbers shown in that table for certain districts include persons enumerated in asylums and special schools related to the enumerated infirmities and situated in those districts, some of whom may have been born and may previously have been ordinarily resident in some other district. The numbers of such persons are shown in Note 9 of this table on page 186.

NOTE 6.—The boundary of the Rangoon Town and Insein Districts passes through the Leper Asylum at Kemmendine, but the main portion of the asylum is in Rangoon and the institution is properly associated with that district. Accordingly 18 female inmates included in the Insein District record have been transferred in Part II of the table and in Note 9 to be shown as if enumerated in Rangoon. The new Rangoon Lunatic Asylum, situated in the Insein District, was still vacant on the date of the census.

NOTE 7.—The system of race-groups in Part III is that adopted for Table XIII and described in Note 3 of that table. Records for race-groups are printed in the table in distinctive type; entries in ordinary type below those are for separate races included in the group. Races which are not represented amongst the infirm persons are not mentioned in the table. Thus although the figures in columns 5 to 16 for each race-group are the sum of the details given below them, this is not necessarily the case for the figures in columns 2 to 4.

IMPERIAL TABLE XIII.

Race.

NOTE 1.—The area and population covered by this table are the same as those covered by Imperial Tables VIA and X, so that the areas (indicated in Note 1 of Table VIA) in which the population was only estimated have been omitted from it.

NOTE 2.—The term *Race* is discussed in the Report Volume; in these notes and in the table, it is used as the generic name of the lowest classes tabulated in Part I of the table.

NOTE 3.—The races corresponding to each of the indigenous language-groups of Imperial Table X have been regarded as forming a racial *Group* to which the same index-letter has been assigned. Race-groups A to O have been regarded as *Indigenous Races* and the remainder as *Non-indigenous*. [Note.—Chinese (R) is an indigenous language but not an indigenous race.] No attempt has been made to classify the non-indigenous races according to any accepted anthropological scheme; but they have been divided into five artificial groups with index-letters as follows:—R, Chinese; S, Indo-Burman; X, Indian; Y, European, etc.; Z, Others. Indians have not been classified by caste; certain clearly distinguished races have been separately tabulated and the remaining Indians have been classified in quasi-national classes, each of which includes all those races which are particularly associated with a certain territory roughly indicated by the name of the class. A list of the races included in each group is given in Part I of the table; for further information with regard to the classification scheme, the Report Volume should be consulted.

NOTE 4.—Part I of this table corresponds to Part IB of Imperial Table X, and, besides exhibiting the classification-scheme, classifies the whole population described in Note 1 and further classifies each race by sex and religion. In Group Y details are not given for the separate European and allied races; they are given in Imperial Table XVI. Some races are shown with *nil* entries because although not recorded in the area covered by this table they are known to exist in the other parts of the province.

NOTE 5.—Alternative names of some Races and many of the names of Clans will be found in Parts IB and IC of Imperial Table X. (See Notes 6 and 7 of that table.)

NOTE 6.—Part II of this table, which corresponds to Part II of Imperial Table X, shows the distribution of each race-group by districts and at the same time classifies the population of each district by race-groups. For selected race-groups a further classification is given in each district by religion.

NOTE 7.—Part III is divided into three parts. Part IIIA shows the distribution by districts of certain selected indigenous races for some of which a classification by religion is also given. Part IIIB supplements Part IIIA by giving the distribution of all other indigenous races. Part IIIC shows similarly the distribution by districts and religion of the more numerously represented Indian races.

NOTE 8.—For Parts IV and V of this table the classification of races by groups has been exchanged for a classification, depending chiefly upon race but taking account also of religion and birthplace, which divides the whole population of each sex into 13 *Peoples* distinguished by Roman serial numbers, and is used in Imperial Table XX. The constitution of each people is shown in Note 9 below Part V of this table and in the Appendix to Imperial Table XX. Part IV of the table gives at the same time the distribution of each people by districts and the classification of the population of each district by sex and people; Part V classifies the population of the whole province by sex, people and religion. Details for Peoples XI and XII and for the Armenians of People XIII, which are not given in this table, are given in Imperial Table XVI.

NOTE 9.—Note 9 is printed below Part V of the table.

NOTE 9.—The titles of the peoples in Parts IV and V give a short approximate description of their constitutions. More precise descriptions are given below, and the racial composition of each people is shown numerically in the Appendix to Imperial Table XX:—

- I.—All Buddhists, Animists and Christians of the Burma and Môn Groups (A and K) and also Buddhists and Animists of all races in Group S. (Christians of Group S are in People XIV).
- II.—Christian Karens (Christians of Group N).
- III.—All non-Christian Karens, except Hindus and Mahomedans. (No Hindu or Mahomedan Karens were recorded.)
- IV.—All persons of indigenous races (*i.e.*, Groups A to O) except Hindus, Mahomedans and persons included in Peoples I to III.
- V.—Yunnanese and all other Chinese of whatever religion.
- VI.—Mahomedan Zerbadis* and Arakan-Mahomedans.
- VII. } Mahomedans other than Chinese, { VII Born in Burma †.
- VIII. } Zerbadis and Arakan Mahomedans { VIII Born outside Burma †.
- IX. } Hindus, Animists of an Indian race, { IX Born in Burma †.
- X. } Sikhs, Aryas and Brahmos { X Born outside Burma †.
- XI.—European and allied races as defined in Imperial Table XVI.
- XII.—Anglo-Indians, including all persons descended partly from persons of Peoples I to X or of Indian races of People XIII and partly from persons of People XI.
- XIII.—All others. In particular this people includes all Armenians and all Indian and Zerbadi* Christians and the Goa-Portuguese described in the note to Part A of Imperial Table XVI, as well as all Jains, Jews and Parsis, and all other races of Group Z.

* This term Zerbadi is used to represent the persons of mixed Indian and indigenous descent who are often called Burma Muslims or Pathis but are more commonly known by this description, which has the advantage of including those of similar descent who are not Mahomedans.

† Burma here represents, as everywhere in this report, the whole province, including the Shan States and Karenni.

IMPERIAL TABLE XIV.

Age and Civil Condition by Sex amongst Selected Races.

NOTE 1.—This table supplements Imperial Tables VIIA and VIIB which shew age, sex and civil condition by religion, and it is presented in two parts. Part I gives the statistics for samples of the indigenous race-groups or races and of the Yunnanese, Other Chinese, Mahomedan Zerbadis and Arakan-Mahomedans respectively; while Part II gives them for samples of the six Indian races most largely represented in Burma.

NOTE 2.—In both parts of the table the statistics relate to a representative sample of each race defined by an area of enumeration consisting of whole districts. In Part I the districts selected for each race are generally those in which the principal part of that race was enumerated, and in some cases separate statistics are given for one race in two or more areas in which the statistics indicate that for the subject of this table conditions are different; in the case of the Karens twelve districts shown in the table have been selected in which one or other kind of Karen is numerous, and statistics have been given for each kind throughout all those districts. In Part II the samples represented are those for whom statistics of birth-places are given in Imperial Table XII, and the title-page of that table should be consulted for particulars.

NOTE 3.—The letters and numbers prefixed to the names of race-groups and races in the first column of the table are the group-letters and numbers assigned to each in Imperial Table XIII and serve to identify them in that table.

NOTE 4.—The age recorded was the number of completed years. The age-group represented by 5-10 in the table includes all who had completed five but had not yet completed ten years of age; and the other age-groups have a parallel interpretation.

NOTE 5.—Similar statistics are given for certain races in some districts separately in Provincial Table IV and for certain races in some towns in Provincial Table V. Imperial Tables VIA or VIB and XIII show also that in some districts one or other religion is almost confined to one race, so that the statistics given in Imperial Table VIIB for those districts and that religion may be regarded with sufficient accuracy as proportional statistics for that race. Statistics for age, but not for civil condition, are given for Europeans, Anglo-Indians and Armenians in Imperial Table XVI.

IMPERIAL TABLE XV.

Christians classified by Sect and Race.

NOTE 1.—This table consists of two parts. In Part I Christians are divided by race into the four classes: (A) Indigenous races, (B) Europeans and allied races and Armenians, (C) Anglo-Indians, (D) Others; and each class is classified by sect in every district. In Part II of the table the totals for the province for the more numerous sects are classified in greater detail by race, and the term *Christian Races* is used to include both classes B and C of Part I. The term *Indigenous Races* includes all the races included in groups A to O in the system adopted for Table XIII and described in the preface to that table; it does not include Zerbadis. The term *European and Allied Races* and the term *Anglo-Indian* are explained in Notes 1, 3 and 4 of Table XVI.

NOTE 2.—The table relates to the same area as Table VI, and to the persons tabulated as Christians in that table; the discrepancy between it and Tables VII, VIII and XVI is explained by Note 3 of Table VIA and Notes 3 and 4 of Table XVI.

NOTE 3.—The term *Sect* is used in this table as a generic name for the religious classes of the tabulation. The Methodist sect includes Wesleyans and Episcopal Methodists; the Baptist sect includes both English and American Baptists; the Protestant sect consists of those who described themselves only as Protestants without further particularisation; in other cases *Sect* is synonymous with *Church* or *Denomination*.

NOTE 4.—The sects included under *Others* are shown in the following sub-table in the notes to which are given details for the larger contributions to the figures by districts other than Rangoon Town. A similar table for Rangoon Town is given in Note 5. (The letters M and F represent the sexes and A, B, C, D the four classes mentioned in Note 1 above.)

* The total number of Talaiag Christians was 363 males and 407 females, of whom 270 males and 286 females were in Amherst District, 4 males and 10 females in Thaton District and nil in Pegu District. Classification by Sect is given for these Districts in the bottom line of the table and is not available for other districts.

† These are persons who described themselves as Karens without specifying any particular Karen race.

‡ The figures for Other Sects in 1911 include 1,190 males and 1,168 females described as Protestants and 221 males and 127 females described only as Christians. The corresponding figures for 1921 are 74 males and 32 females described as Protestants and nil described only as Christians.

§ Includes 2,007 males and 734 females of Indian races.

IMPERIAL TABLE XVI.

European and Allied Races, Anglo-Indians and Armenians Classified by Nationality, Race, Sex and Age.

NOTE 1.—This table has been prepared in three parts A, B and C. Part A relates to European and Allied Races and is itself divided into three sections distinguished as I, II and III, of which Part A-I may be regarded as the definition of the term *European and Allied Races* for the purposes of this Census. In the three sections of Part A persons of European and Allied Races are classified as follows:—

Part A-I.—By race, nationality and sex for the whole province.

Part A-II.—By nationality and sex for each district.

Part A-III.—By nationality, sex and age for each district.

Parts B and C classify Anglo-Indians and Armenians respectively by sex and age in each district. The term *Anglo-Indian* includes all those who were described as such (or as Anglo-Burmans or Euro-Burmans or by other names indicating similar mixed descent) in 1921 before a new definition of *Anglo-Indian* was given in connection with the electoral scheme of 1922.

NOTE 2.—The table covers the whole province except those areas in which the census was only by estimation and those entirely omitted from the census. (*See* Notes 11 and 12 of Imperial Table II.)

NOTE 3.—The numbers given for some districts in columns 7 and 8 of Imperial Table XV for European and allied races and Armenians differ from the corresponding figures of this table because Table XV is confined to Christians, whereas the present table includes some of European and allied races who are not Christians. The number of these in each district is shown at the foot of Part A-I on the next page.

NOTE 4.—Similarly the numbers of Anglo-Indians shown in Part B of this table differ from the numbers shown in columns 9 and 10 of Imperial Table XV because the latter exclude Anglo-Indians who were not Christians. The number of these also in each district is shown at the foot of Part A-I on the next page.

NOTE 5.—The age recorded was the number of completed years. The age-group represented by 30-40 in the table includes all who had completed 30 but had not yet completed 40 years of age; and the other age-groups have a parallel interpretation.

NOTE 6.—All figures given for Mandalay District include the corresponding figures for Mandalay City which are given immediately below them.

† See the Explanation below.

EXPLANATION OF THE DIFFERENCE BETWEEN THE NUMBERS OF IMPERIAL TABLES XV AND XVI.

The numbers of persons of European and allied races and Armenians and the numbers of Anglo-Indians shown in columns 7 to 10 of Imperial Table XV are less for certain districts than the corresponding numbers in Imperial Table XVI because the former include only Christians while the latter include also persons of these races who do not follow the Christian religion. If the numbers of Armenians shown in Part C of Table XVI (all of whom are Christians) are subtracted from the numbers in columns 7 and 8 of Table XV the number of Christians of European and allied races of each sex in each district will be found. The discrepancies then found between Tables XV and XVI in each district arise from the inclusion in Table XVI of the persons represented in the following table:—

European and Allied Races.				Anglo-Indian.

IMPERIAL TABLE XVII.

Occupations.

NOTE 1.—The area and population covered by this table are the same as for Imperial Table VIA and thus represent the whole province except those areas described in the Notes to Imperial Table II which were omitted from the census or were censused only by estimate.

NOTE 2.—The population is classified by this table into 225 *Groups*, each of which is in two parts corresponding to *Workers* and *Dependents*, and the groups are further classified in 60 *Orders* which are themselves classified in 14 *Sub-classes* of 4 *Classes*. For further information about these categories Part I of the table should be consulted.

NOTE 3.—The Table has been prepared in three parts:—

PART I defines the special terms and describes the system of classification used in the table and exhibits the relationship of the latter to the system used in other provinces of India at this census and to the system used in Burma as well as in other provinces at the census of 1911. Section B of this Part should always be consulted with reference to any figures of Part II or III which it is proposed to use.

PART II gives statistics of occupations for the province as a whole.

PART III elaborates Part II by showing the contribution by each district to the provincial totals for each class, sub-class, order and group, each of these grades of the occupational classification being completed in turn. In this part of the table the figures given for the Rangoon Town District represent also Rangoon Town, which, for the purposes of the Imperial Census Tables, is conterminous with the district. The figures given for the Mandalay District include the separate figures given in italics immediately below them for Mandalay City.

NOTE 4.—Throughout Parts II and III of the table the statistics show the number of workers of each group or higher category classified by sex and also the number of dependents and the number of workers and dependents taken together without classification by sex. Workers of each sex who have a subsidiary occupation are included in the numbers shown for *Total Workers* but are also separately tabulated in two classes according as the subsidiary occupation is *Agricultural* or not.

NOTE 5.—*Occupation*, *Principal Occupation*, *Subsidiary Occupation*, and *Agricultural Occupation* are amongst the special terms defined in Section A of Part I of the table.

NOTE 6.—Further statistics for Principal Occupations by racial groups and races are given in Imperial Table XX, and further statistics for Subsidiary Occupations in Imperial Tables XVIII and XIX, while various statistics for persons employed in industrial establishments are given in Imperial Tables XXIIA and XXIIb.

IMPERIAL TABLE XVII.—*Occupations.*

PART I.—The System of Classification.

This part of the table is presented in five sections named A to E as follows:—

SECTION A.—DEFINITIONS.

1. The whole population is first divided into the two classes of *Workers* and *Dependents*. The term *Dependents* includes all (except a few classes conventionally treated as workers) who have not their own direct incomes but are supported by another who does not stand to them in the relation of an employer; all others are *Workers*. The term *Workers* thus includes those whose income is derived directly from such sources as begging, pensions, rent, dividends or profit of trading as well as those whose income or maintenance is received as payment for their labour or other services; and it is conventionally extended to include priests and Buddhist monks even if they have no income, and also prisoners in jails and inmates of asylums and some other special classes. Wives of workers who do not assist directly in the work for which their husbands receive remuneration are regarded as dependents upon their husbands unless they obtain an income either by their own labour or in their own right.

As persons who partake of the characters of both workers and dependents are classified according to the description given in the enumeration-schedules, many wives and children who earn a small amount occasionally or have a small private income have been tabulated as workers, although they are principally supported as dependents and others under the same conditions have been tabulated as such.

2. Every Worker is assigned to one or other of 225 *Groups* according to either his occupation, trade, profession, office or other source of income or economic support or the industry, profession, branch of commerce or of public service in connection with which he practises that occupation or trade, follows that profession, fills that office or derives that income. For convenience the groups are called *Occupational Groups* and the character which determines the group to which each worker is assigned is called his *Occupation*, although many of these characters are not occupations in the ordinary sense of that word.

3. For a worker who has the occupational characters of more than one group the principal character (*i.e.* generally that with which the greater part of his income is associated) is called his *Principal Occupation*, and the next most important his *Subsidiary Occupation*; any still less important occupational character is ignored. An *Agricultural Occupation* is any occupation belonging to one of the six groups 1, 2a, 3a, 3b, 3c, and 4; the distinction between this term and *Agriculture Proper* should be noticed, the latter covering only Groups 3a, 3b and 3c. Occupations of Groups 5, 6 or 7 are not regarded as agricultural. The subsidiary occupation of a worker whose principal occupation is agricultural is ignored if it belongs to the same occupational group as that principal occupation (Note: 3a, 3b and 3c are different groups, not subdivisions of a group).

4. The occupational group to which each dependent is assigned is that of the person on whom he principally depends for maintenance.

5. The 225 groups are numbered serially with Arabic figures from 1 to 191 inclusive, each of the following 17 numbers being used for two or more groups distinguished by letters affixed to their numbers:—2, 3, 6, 9, 22, 45, 64, 83, 98, 107, 110, 113, 123, 125, 127, 136, 177.

6. The 225 groups have also been further classified into 60 *Orders* numbered serially in Roman notation from I to LVI, the number II being used for 5 separate orders distinguished as IIA, IIB . . . IIE.

7. The 60 Orders have been classified into 14 *Sub-classes* numbered serially in Roman notation in italics from I to XII, the number I being used for Sub-classes Ia, Ib and Ic.

8. The 14 Sub-classes are associated in 4 *Classes* distinguished as A, B, C and D.

9. The groups, orders and sub-classes respectively which are included in any higher category of the classification are shown by Part II of this table.

10. In the following notes the term *Standard Scheme of 1911* means the scheme used in 1911 for the classification of occupations in all provinces, including Burma; while the term *Standard Scheme of 1921* means the scheme used in all provinces other than Burma in the census of 1921, and the plural *Standard Schemes* includes these two standard schemes and no others. Section D of this Part of the table indicates, with the aid of the group-titles, the correspondence between the Burma scheme of 1921 and the standard scheme of that year, and, in conjunction with Section E, indicates similarly the correspondence between the Burma schemes of 1921 and 1911.

SECTION B.—THE CONTENTS OF THE CATEGORIES.

1. The principal part of this section has been cast in the form of a note on Class B followed by notes on selected groups in order; but certain general notes applying throughout are given in these prefatory paragraphs.

2. Generally the occupations included in each category (class, sub-class, order or group) are indicated approximately by its title in Parts II and III of the table, if that is read with reference to the titles of the higher categories which include it and the lower categories which it includes. Some titles which had to be abbreviated in Parts II and III of the table are given more fully in this section of Part I, and various notes which give further help in showing the meaning of the titles and the corresponding figures are also included; it is always desirable to refer to the relevant notes of this Section before any of the figures of Parts II and III are used. In association with Section C this Section is also intended to assist in discovering the group or higher category in which any specified occupation is included.

3. In all cases persons who repair any articles are classified in the same group as those who make those articles. The term *occupied with* includes making or repairing or using but not mere buying and selling by persons who take no part in the manufacture or preparation of the article concerned. The terms *dealer* and *trade in* include the hiring as well as the selling of the articles mentioned, but do not include the making of those articles. Persons who make, extract or grow as well as sell or lend or refine any article or substance are classified as makers, extractors or growers as the case may be.

4. The articles with the manufacture or sale of which any group of Sub-classes III and V is concerned are generally characterised either by being finally determined for similar or related uses or by being made of the same or similar materials.

5. Clerks, messengers and all unskilled workers are classified in the same group as the majority of the persons to whose work theirs is auxiliary; e.g., the clerks, peons and coolies in a rice-mill or its office are all assigned to Group 65 together with the managing rice-miller. Generally this rule applies to all the skilled and unskilled workers who co-operate in the same industrial or commercial undertaking, except those (such as factory-doctors and railway-police) who do not assist in the specific industrial or commercial work of the undertaking, but apply a special technique which is independent of the nature of that work. This exception does not apply to artisans who make articles which are used in such an undertaking; thus carpenters employed in railway-works are classified in Group 118, those in motor-car workshops in Group 90, those in shipbuilding-yards in Group 92. For most skilled artisans however the enumeration-schedules did not give sufficient information for this classification to be made; in such cases the artisan was assigned to the same class as those who practise the same trade in an independent or general way.

6. Government or municipal officers are assigned to the groups which correspond to their specific occupations (e.g., professor, forest-officer, settlement officer); only those officers (e.g., magistrates) for whom no other group is provided are assigned to Group 161, 162 or 163. The whole establishments of such officers, including peons and chaprasis, are assigned to the same groups as the officers themselves.

7. Domestic and other private servants except sweepers are all shown in Groups 181, 182 and 183 and excluded from all other groups.

8. No person is regarded as taking part in an industry or business merely because he is a shareholder in a company which is engaged in that industry or business, or lives without working on the savings from the income or profits formerly obtained by practising that industry or business. If dividends on shares, interest on savings and the like are the principal immediate source of his income he is assigned to Group 180 without regard to the origin of his fortune.

9. Groups 184 to 187 inclusive (constituting Order LIII) have been provided for persons engaged in productive occupations which were not described in the enumeration-schedules with sufficient clearness for proper classification; they thus imply improper diminutions of the numbers tabulated for other orders and groups. Some others for which the description given was not even clear enough for tabulation in these groups are in Group 191.

10. As it cannot be hoped that the notes below are complete, no conclusions can generally be drawn from omissions. The intention however has been to omit from them mention of those categories which seem to call for no special remark. For any class, sub-class or order the notes on the groups included in it should be consulted; for Class B there is a special note in addition immediately below this paragraph. In the notes on groups the number in antique type prefixed to each note indicates the group to which the note relates.

Classes.

Class B.—This class includes the same occupations as Class B of the standard schemes although the title *Industry and Commerce* has been adopted instead of *Preparation and supply of material substances*. The class includes however some groups which are not covered even by the new title—e.g., Groups 101, 102, 103—but were included to reduce the variations in Burma from the standard scheme to a minimum.

Groups.

1. This group, although its title has been changed, is equivalent to Group 1 of the standard schemes. In 1911 the designation *Rent-receiver* was used in Imperial Table XVb, for persons of this group to contrast them with persons of Group 2 of that year who were called *Rent-payers*; and the same terms have been used by the Government of India with the same meanings in 1921. See also Note (ii) on Groups 3a, 3b, 3c, below. Persons supported by the ownership of, or rights over, land or water used for purposes excluded by the title of this group are in Group 18o.

(ii) Workers of Groups 1, 2a, 3b, 3c, or 4 are said to have an agricultural subsidiary occupation only if they have a subsidiary occupation which does not belong to the same group as their principal occupation.

2a, 2b.—(i) Group 2b includes all belonging to the Settlement, Land Records and Agricultural Departments of Government. The Irrigation Branch of the Public Works Department however is included not in this group, but in Groups 108 and 109.

(ii) The two groups 2a and 2b together correspond approximately to Group 3 of the standard schemes, but a few persons have been somewhat arbitrarily classified by those schemes in different groups, and in 1911 the subordinate land-records staff was divided between Groups 144 and 158 corresponding to Groups 161 and 176 of 1921.

(iii) Note (ii) of Group 1 applies to Group 2a. Probably no occupations of Group 2b are practised as subsidiary occupations. See also the note below on Group 6.

3a, 3b, 3c.—(i) The sum of the three Groups 3a, 3b, 3c, is *Agriculture Proper* as defined and distinguished from *Agriculture* in Article 3 of Section A above.

(ii) Groups 3a, 3b and 4 taken together correspond to the term *Rent-payer* as used in Imperial Table XVb of 1911 for Burma. [See also Note (i) of Group 1.]

(iii) Note (ii) of Group 1 also applies to these three groups.

4. *Taungya* cultivation is a system of temporary cultivation practised by primitive tribes and people. A patch of jungle on a hill-side is cleared by fire and various seeds sown, chiefly or solely with a view to providing household requirements directly. A fresh patch is taken each year, but in some parts a return is made to each after a cycle of years. Notes (ii) and (iii) for Group 3a also apply to this group.

5. Market-gardening means the intensive cultivation of vegetables for regular supplies to an urban market. The group was intended to include Chinese vegetable growers and those Shans and Indians who practise similar intensive methods; but, as the records were generally not sufficiently precise to identify these, they have generally been included in Group 3a, 3b or 3c. The correct number however cannot be large.

6. Some rubber estates have labour organised on the typical *Plantation* system; but apart from these there is no general distinction between persons in this group and those in Groups 3a, 3b and 3c beyond the difference of the crop cultivated. Indeed most cultivators of betel-vine or sugar-cane grow these crops only as subsidiaries to some other kind of cultivation, and have been tabulated in the group corresponding to the latter (generally 3a, 3b or 3c); and the same may be true of some cultivators of the other crops with which this group is concerned. Some cultivators of sugar-cane have been tabulated in Group 71; see the note for that group. The cultivation of opium or ganja is illegal except in certain Shan states east of the Salween. (See the notes on Groups 75 and 137.)

8. Assistants of timber firms have been classified under sawyers in Group 43.

9b. Most elephant drivers are included in this group instead of Group 18z to which they are assigned in the standard schemes, because in Burma they are chiefly employed in collecting timber.

9c. In Burma cutch is always boiled in the camp of its collectors, and it is not possible to distinguish collectors and boilers. Cutch boilers are therefore included in this group and not in Group 64c.

9d. Grass-cutters are in this group. Collectors of edible birds' nests are also included in this group, but are few and confined to the Tavoy and Mergui districts.

10. The figures for this group are *nil* because lac-collecting is always regarded as a subsidiary industry.

11. Probably some in this group are carters or keep pack-cattle and have been wrongly classified through incomplete information. Some are dairymen with exactly the same occupation as others who are tabulated in Groups 70 and 133. See the notes on those groups.

16. Probably many who breed silk-worms have been tabulated as silk-spinners. The figures of Groups 16 and 34 should be taken together and not used separately.

19. See the note on Group 21.

21. The metals concerned in Burma are copper, gold, lead, molybdenum, platinum, silver, tin, wolfram and some others in minute quantities. (Some of those mentioned are also extracted only in very small quantities.) Silver and lead are found together and their smelters are included in this group as well as their miners. (See note on Group 50.) This group also includes coal-miners who get coal for use in smelting silver-lead ore. Many who recover gold from the refuse of goldsmiths' shops or from pagoda platforms were returned as gold-washers and included in this group.

27. As in some cases the record failed to state whether the weaver used silk or cotton it is probable that some weavers using cotton have been tabulated as silk-weavers in Group 35 and *vice versa*.

34. See the note on Group 16.

35. See the note on Group 27.

36. Brush-makers and persons occupied with bristles are now included in Group 41; but in the census of 1911 they were associated in Group 28 with the textile workers using hair who now form Group 36 without them. See note on Group 41.

38. This group includes the making of lace, crepe, embroideries, fringes, etc., and also all textile industries insufficiently described for classification in the preceding groups.

40. This group includes the makers of such leathern articles as trunks, water-bags, saddlery and harness. It includes also the makers of all kinds of saddles, even Burmese saddles which may have no leather in them. Makers of leathern articles of dress or of the toilet are in the groups of Order XIII. See item 3 in Section E.

41. This group includes the furriers and persons occupied with feathers who in 1911 constituted the whole of Groups 34 and 29 respectively, and also the brush-makers and persons occupied with bristles who in 1911 formed part of Group 28. See note on Group 36.

42. Button-makers are in Group 79.

43. See note on Group 8.

44. This group includes all described as carpenters, turners, joiners or other workers in wood without the specification of any particular industry. In particular it includes all erectors of wooden (but not bamboo) buildings. See also the notes for Groups 45c, 83, 84, 89 and 177d. Many carpenters and other workers in wood are tabulated in the groups which relate to the industries in connection with which they are employed.

45a. This group includes makers of baskets, sieves, fish-traps and other cages of bamboo, cane and similar materials. Lacquer workers are also included because they usually make the basket foundations of their work and could not be accurately distinguished from others of this group.

45b. This group includes makers of thinbyu, nigyaw-pya and hlè-paung-mo (which are three kinds of reed matting of varying degrees of fineness) and makers of all similar matting.

45c. This group includes makers of thatch and of wa-tayan, kyu-tayan and other matting used for walls of floors and also builders using bamboo, reeds or similar substances. Thatchers and erectors of bamboo houses, now in this group, were included in Group 79 in 1911; see note on Groups 80 to 89.

46. The ordinary blacksmith is assigned to Group 48, not to this group.

47. Makers of dahs or spears have been assigned to Group 48 and not to this group because they make chiefly dahs used as agricultural and household implements. (*Dah* is a generic name in Burmese for knife, cutlass, sword, dagger.)

48. Fitters and other mechanics for whom the records did not show the industry in which they were employed are included in Group 186. See also note on Groups 46 and 47.

49. This group would include smelters and refiners of copper, but none were recorded in Burma. Makers of brass images should have been separately tabulated in Group 177d but have been included in Group 49 by mistake. See note on Group 177d.

50. It was intended that smelters of silver-lead ore should be regarded as workers in lead and tabulated in this group. But, as the records for workers in the silver-lead mines and refineries of the Northern Shan States did not distinguish persons employed in the mines from those employed in smelting and refining, all these have been tabulated in Group 21 (see note on Group 21 above). Electroplaters are in Group 50.

52. Workers in glass mosaic are also included in this group.

57. In Burma workers in alabaster are almost entirely engaged in making representations of Gotama and his disciples; they are accordingly classified as sculptors in Group 177c. Workers in glass mosaic have been tabulated in Group 52.

59. In 1911 ice-makers who are now included in this group were in Group 83 which corresponds otherwise to Group 93 of 1921.

62. Many persons in the Hanthawaddy district employed in mineral-oil refineries have been tabulated in Groups 185, 186 and 187 through deficiencies in the record.

64c. Lac, cutch, candles and tallow are amongst the substances included in this group, but the figures corresponding to them are *nil*. Lac is not manufactured in Burma but exported raw. Cutch is cut and boiled by the same group of persons, and in fact the occupation of collecting cutch is known as cutch-boiling; all such persons are entered in Group 9c. Candles are made only of mineral wax in the petroleum refineries represented in Group 62. There is no industry connected with tallow in Burma.

68. This group includes all concerned in the slaughter of animals for food; those who only trade in meat are assigned to Group 138.

69. Many fish curers are also fishermen and tabulated as such in Group 17.

70. Persons tabulated in this group were returned as butter-makers, etc., but probably all are cow-keepers and not differentiated from others tabulated in Group 11 or 133. See the notes on those groups.

71. *Jaggery* is the product of evaporation of the juice of the palmyra palm (*Borassus flabellifer*) and is generally prepared by the palm-climber or his family or other assistants, although some preparers buy their palm-juice. Some preparers of jaggery were recorded as such and tabulated in Group 71, while some were recorded as toddy-drawers and tabulated in Group 74; many of the latter class are really preparers of jaggery but in the tabulation-office there was no way of distinguishing them from those who collect the palm-juice to sell it as toddy.

Dhani-th'gya is a product similar to jaggery derived from the dhani palm (*Nipa fruticans*), and the conditions for tabulation were essentially the same as noted above for jaggery.

Kyantaga is obtained by evaporating the juice of the sugar-cane and is generally prepared by the cultivator of the sugar-cane or by his family or other assistants. Some preparers of kyantaga were recorded as such and tabulated in Group 71, while some were recorded as cultivators of sugar-cane and tabulated in Group 6c, or (because sugar-cane was not their main crop) were recorded as cultivators of paddy, etc., and tabulated in Group 3a, 3b or 3c; there is no difference between these two classes, but in the tabulation-office there was no way of distinguishing the latter from other cultivators of sugar-cane who do not prepare kyantaga at all.

72. Although jaggery, dhani-th'gya and kyantaga are used as sweetmeats preparers of them are tabulated in Group 71. See the note upon that group.

74. See the note of Group 71. All Upper Burma and some Lower Burma figures of this group represent preparers of jaggery; and some palm-climbers are in Group 71. Some females are shown as toddy-drawers although females never climb the trees; the whole family assisting the toddy-drawer is customarily regarded as engaged in palm-climbing and is shown accordingly in the enumeration-schedules.

75. In Burma tobacco is always cured by the growers who are included in Groups 3a, 3b and 3c. Cigar-makers are included in this group. In the standard schemes manufacturers of opium and ganja are included in this group, but in Burma these manufactures are illegal except in certain Shan States east of the Salween, where however the persons who manufacture opium are the cultivators who are tabulated as such in Group 6/ unless they have other more important cultivation which causes them to be classified otherwise. See also the note on Group 137.

79. This group is provided in the standard schemes for industries relating to gloves, socks, gaiters, belts, buttons, umbrellas, walking-sticks and canes, etc. In Burma the umbrella-makers are practically the only class represented; the numbers making other articles concerned in this group are very small.

82. The title of this group in the standard schemes is "Other industries connected with the toilet (tattooers, shampooers, workers in bath-houses, etc.)"; but in Burma the *a-hneik-thè*, who massage sometimes to promote a feeling of health and well-being but generally for the removal of rheumatic or other pains, constitute nearly the whole of the group. Besides them there are only tattooers, the number of whom is both small and diminishing.

83a. } Group 83 was divided into two parts at the request of the Industries Department;
83b. } but it was always doubtful whether the division could really be made, because it was expected that polishers would be described in the same way as cabinet-makers. Experience in tabulation suggested that probably cabinet-makers and polishers have been returned as a rule as carpenters (Group 44) as the Burmese word *let-thama* (carpenter) is often used for a cabinet-maker instead of the long term *ein-daung pari-bawga lok-thama*. Tabulation has necessarily followed the entries in the schedules and thus included cabinet-makers in Group 44.

84. Many upholsterers are probably included in Group 44 through being described by the Burmese term for carpenter (see note to Group 83). Those employed in motor or carriage workshops are in Groups 90 and 91. Probably the persons tabulated in Group 84 are really makers of mattresses, pillows, etc., rather than upholsterers.

85. Surki-pounders are not included in this group but in Group 89.

86, 87. } These four groups, together with thatchers and erectors of bamboo houses,
88, 89. } who are now in Group 45c, are equivalent to Groups 77, 78 and 79 of 1911. A more complete title for Group 89 is "Painters and decorators of buildings, tilers, roofers (not using thatch), plumbers and all builders other than bricklayers, masons, carpenters or erectors of buildings principally made of bamboo or similar materials." Pounders of bricks for making *surki*, white washers and sign-board painters are also in Group 89. See too the notes on Groups 111 and 176.

90. Makers and repairers of all kinds of cycles, whether motor-cycles or not, are included in this group. Also makers and repairers of motor cars and other motor land vehicles. Makers of motor-boats or air-ships would be in Group 92, but none were recorded in Burma. See also the note on Group 113b in which also some engaged in repairs of motor-vehicles are included.

91. This group includes makers and repairers of carts, carriages, rickshaws and all other vehicles used on land except (i) cycles (see note on Group 90) and (ii) vehicles used on railways (see note on Groups 118 and 119).

92. Aeroplane builders belong also to this group, but none were recorded in Burma.

99. Makers of paper flowers have been included in this group in accordance with the standard schemes although Group 100 seems more appropriate and does include the makers of paper lanterns.

100. This group includes makers of kites, of dolls and marionettes and of fishing tackle, but not makers of fish-cages and fish-traps for whom Group 452 provides. Making paper lanterns and taxidermy would also belong to this group; but, because they are not practised as principal but only as occasional occupations, none returned them. See also the note for Group 99.

101. This group includes the management and service of racecourses, football-grounds, etc., huntsmen, billiard markers, the managers and other employees (except performers) of theatres, cinemas and other places of public entertainment and the staffs of public societies. Actors, singers and dancers are included in Group 178; boxers, conjurers, etc., in Group 179.

105. Pilot and light-house services are included in this group.

106. Persons belonging to this group have not been tabulated correctly because their returns failed to indicate the place of their employment. Probably most are included in Groups 186 and 187. Coolies on wharves and jetties are included in Group 117.

107a. } Clerks, peons, etc., working for persons of these groups are included in Group

107b. } 107a. (But see the note on Group 117 for coolies at wharves)—*Ship* includes (i) all vessels propelled by mechanical power otherwise than by an outboard motor, and (ii) sea-going vessels which are not of those types which are generally associated with some particular point on the shore from which they make short excursions to sea. (See the note on Group 110a below.)

108. (i) The whole of the Irrigation Branch of the Public Works Department is included in these two groups although only a small part of it is concerned strictly with transport (e.g., the staffs of the Twante and Pegu-Sittang canals) and the greater part is really assisting in agriculture. (ii) Clerks, peons, etc., employed in association with occupations properly of this group are included in it. (iii) Probably some persons of this group have been tabulated in Group 111 through insufficient information in their returns.

109. The records for persons of this group do not indicate the place of their employment. Probably most are included in Groups 186 and 187, and some may be in Group 112.

110a. Clerks, peons and all others working for boat-owners except boatmen and towmen are included in this group. *Boat* includes (i) small sea-going vessels of the types which are generally associated with some particular point on the shore from which they make short excursions to sea, and (ii) inland vessels which are either not propelled by mechanical power or are propelled by an outboard motor. (See the definition of *ship* in the note on Group 107a.)

110b. See the definition of boat for Group 110a above. See also the note on Group 117 for coolies at wharves and other landing-places.

111. } The whole of the Roads and Buildings Branch of the Public Works Department

112. } is included in these groups; some of its members have little to do with means of transport and are chiefly occupied with the construction of residential buildings and of offices not concerned with transport, but it is impossible to classify them more minutely. The Public Works Departments of Municipal Committees and other local authorities should be classified here if specialised in work on roads and described accordingly in the schedules; but in most cases one or both of these conditions was not satisfied, and classification in Group 163 was given accordingly.

113a. } These two groups exclude all private servants but include all others who

113b. } are occupied in connection with transport by mechanically driven vehicles of any kind, including taxis, lorries, trams, etc. Managers for companies or persons owning such vehicles, and owners of such vehicles who manage the transport business, are included and also all their mechanics, drivers, cleaners, clerks, messengers and all other employees whether in the garage, works office or elsewhere. Of these, drivers and engine-cleaners have been tabulated separately in Group 113a and all others in Group 113b. Makers or repairers of motor-vehicles who are not principally engaged in the actual transportation business together with all their employees, are in Group 90. See also the note on Group 114.

114. Occupations associated with transport on land are divided amongst Groups 111 to 119 inclusive. Groups 111 and 112 deal with the construction of roads; Groups 118 and 119 deals with railway construction and working; Group 116 deals with direct carriage by animals without the aid of vehicles, and Groups 113a, 113b, 114, 115 and 117 deal with transport by vehicles or by human labour as explained below.

Persons employed as private servants in connection with animals or vehicles having been separately classified in Groups 182 and 183, all others whose occupations are associated with vehicles are classified according to the motive power of the vehicle: Groups 113a and 113b taken together, Group 114 and Group 115 respectively thus correspond to vehicles propelled by mechanical power, by animals and by human labour. An exception is made however in the case of hand-carts which are regarded rather as contrivances assisting porters to carry goods than as vehicles, so that persons whose occupations are related to transport by hand-carts are assigned to Group 117. (See note on Group 117.)

The notes on the separate Groups 111 to 119 should also be consulted.

115. The vehicles concerned in this group are rickshaws, sedan-chairs and other vehicles drawn or carried by human labour and intended for the conveyance of human passengers. Hand-carts are not included; see note on Group 114.

116. This group is concerned only with actual carriage by animals, without the use of vehicles. See also the note on Group 114.

117. See also the note on Group 114. Group 117 was intended to include only porters and messengers employed in general transport on land otherwise than by rail. Coolies at jetties or wharves or goods stations loading or unloading boats or railway trucks have been regarded as belonging to this group when so identified in the records; and this applies also to coolies carrying luggage at railway stations but not on the railway staff. Hand-cart coolies have also been included in this group. So too have owners of hand-carts, who only hire the carts to coolies, although the title of the group does not cover them. Many belonging to this group have doubtlessly been included in Group 187, the note on which should be consulted. In accordance with the general rule peons or porters engaged for a particular industry or business or office are included not in Group 117 but in the group to which that industry, etc., belongs; e.g. peons in the employ of a wholesale dealer in piece-goods are in Group 123a; peons in a settlement office in Group 2; postal and telegraph peons in Group 120; porters on the railway staff in Group 119.

118. } These groups include all persons (except those mentioned below) engaged in
119. } railway offices and workshops and on railway construction as well as those engaged in working the railways. Railway doctors are in Group 171, railway police in Group 159, sweepers on railways in Group 103, the railway postal service in Group 120. Probably a number of persons of these two groups are included in Groups 185, 186 or 187. See also for coolies the note on Group 117.

121. A more complete title for either Group 121 or Order XXIV would be as follows: "All employed in connection with banking, money lending, pawnbroking, foreign exchange, money changing and all occupations concerned solely with finance, credit and insurance—except stock and share brokers and jobbers and auditors, who are included in Group 122."

122. A more complete title for either Group 122 or Order XXV would be: "(i) Stock and share brokers and jobbers, auditors and labour agents; (ii) all such brokers (other than stock or share brokers), commission agents, auctioneers, appraisers (other than Government servants), commercial travellers or warehouse-owners as are not confined to a specified particular kind of trade, and (iii) all employees of the foregoing."

127. This group includes trade in pottery which constituted Group 112 of 1911 and also trade in bricks and tiles which formed part of Group 128 of 1911. See note on Group 143 below.

128. The term *chemical products* includes drugs, dyes, paints, petrol, kerosene, candles and all other products of petroleum refineries, medicines (patent or not), explosives, etc. But there is the difficulty that as the Burmese word *hse* for tobacco is often used for medicines without the distinguishing prefix *bara*, some persons belonging to this group may have been tabulated in Group 137 or *vice-versa*. Many traders tabulated in other groups sell articles concerned in this group but are not tabulated here because they are either general dealers or trade principally in some other kind of goods.

129. This group includes the same occupations as the corresponding Group 114 of the census of 1911 although the title in 1911 did not mention trade in ice.

133. Most of this group are cattle-keepers who sell milk; and some people of the same kind have probably been returned as cattle-keepers and included in Group 11. There is confusion in the tabulation of Groups 11, 70 and 133 owing to incomplete descriptions in the schedules. See the notes on those groups.

137. The number of opium dealers in any district of Divisional Burma is small; the total number of opium shops in the province in 1921, excluding the Shan States, Chin Hills and some other areas under special administration, was only 125, and the total number of this group in the whole province who are concerned with opium is probably under 1,000. The remainder of the group are tobacco-dealers. Many of the cigar-makers of Group 75 also are sellers of the cigars they make. See the notes on Groups 75 and 128.

139. Sellers of oil-cake are in this group.

140. This group includes trade in hats, socks, ready-made shoes and ready-made clothing of all kinds and also in umbrellas, walking-sticks or canes, perfumes, etc.

141. "Woven furnishings" include carpets, curtains, bedding and mats made of reeds, bamboos, etc., which are not used for building. Tent-sellers are also in this group.

142. The goods with which this group is concerned include all household goods not in Group 141, such as hardware, cooking-utensils, porcelain, crockery, glassware, bottles, gardening tools.

143. This group includes trade in building-stone, plaster, cement, sand, etc. The corresponding group in 1911 was Group 128, which however included also trade in bricks and tiles which has been transferred to Group 127 of 1921. See note on Group 127.

144. } Group 144 relates to all kinds of cycles whether with motors or not, and also
 145. } to all kinds of mechanical transport whether on land or water. Group 145
 relates to all kinds of transport without mechanical power except cycles. Hireds of hackney
 carriages are in Groups 113b and 114.

147. Fuel includes wood, charcoal, coal; cow-dung is not commonly used as fuel in
 Burma and there are none who live by selling it for use in this (or any other) way.

149. Sellers of images of all kinds are included in this group.

151. There is no trade in stable refuse or cow-dung in Burma. See note on Group 147.
 Trade in bats' guano is covered by this group.

154. Stamp-vendors are included in this group.

155. In this group are included 319 Mahomedan and 130 Hindu male workers, all born
 outside Burma, who although in military service reported an agricultural subsidiary occupa-
 tion; it seems probable that some of them were merely taking advantage of being far from
 their homes to pretend to have the status of landowners, or that their wish was father to
 their thought. The Mahomedans were Pathans or Punjabis while the Hindus were
 Mahrattas.

159. There are 448 female workers recorded in this group; probably all are depen-
 dents of this group for whom the enumeration-record was written in the wrong column.
 The numbers are distributed through most of the districts and the matter was noticed
 too late for correction. The Excise Department is included in Group 161, not associated
 with police in this group.

161. } Soldiers, sailors and police belong to Sub-class VI; engineers, doctors,
 162. } sweepers and others, the character of whose occupation is not affected by the
 163. } fact that they are employed in the public service, are not included in this group
 but in the group assigned to their specific occupation. The Official Assignee and his staff
 are in Group 161, and so are all the Excise Department. Health Officers have all been
 assigned to Group 171. See Article 6 of the preface to this section of the table.

165. } *Methilayin*, *pothudaw* and *yatha* have been treated as workers of Group 166
 166. } and *koyin* as dependents in the same group. *Tayahaw* and other lay preachers
 167. } have been assigned to Group 167, but *kappiya* have been assigned to Group 181
 as domestic servants.

169. This group includes solicitors and conveyancers, notaries public, receivers for
 courts, *kasis*. The Official Assignee and his staff are in Group 161.

170. Interpreters in courts of justice are included here.

171. This group includes all practising principally as doctors, dentists, oculists or
 veterinary surgeons, etc., whether with European or orthodox qualifications or not; also
 all health officers.

172. This group includes all hospital and asylum establishments except those in
 Group 171.

173. All grades of the Education Department are included in this group.

176. Civil engineers of the Public Works Department and their staffs are in Groups
 108, 109, 111, 112; while those of the railways, with their staffs are in Groups 118 and
 119. The Land Records Department was included partly in Group 159 of 1911
 which corresponds to Group 176 of 1921, but in 1921 it is in Group 2b; see items 1 and 10
 of Section E below. The figures for Group 176 are obviously inaccurate.

177b. There is no distinction between many included in this group and the *bedin-saya*
 of Group 179, as many shown in each might be described with equal reason so as to
 belong to either group. Neither the figures shown for this group nor those shown for
 Group 179 should ever be used alone, but only the sum of those for the two groups. See
 also the note on Group 179.

177c. See the note on Group 37.

177d. It was originally intended to include all makers of images in Groups 177c and
 177d, those who worked in stone being separated in Group 177c while those who worked
 in other materials formed Group 177d. But owing to an entry in the index for *wood-carvers*
 ("Group 83 if not cabinet-maker") and another for *Carver in wood and ebony* ("Group 44
 if not for furniture") those of Group 177d were wrongly classified in Groups 44 or 49
 according as the material was wood or metal.

177e. Adult scholarship-holders studying for a particular profession stated in the
 enumeration-schedules are included in the group corresponding to that profession; all
 others are in Group 177e. Juvenile scholarship-holders are classified as dependents in
 the group of their parents or guardians, but if that is not known they are classified as
 dependents in Group 177e.

179. Practically all in this group were described as *bedin-saya* (fortune teller). See
 the notes on Groups 101 and 177b.

180. The workers of this group include all who derive the principal part of their incomes
 from such sources as pensions, dividends or royalties, or the ownership of rights-of-way or
 of buildings or of land used for building, mining or any other purpose than the occupations
 of Sub-classes 1b and 1c. See also the note for Group 1, and Article 8 of Section B of
 this Part.

181. } These three groups include all domestic servants except sweepers. In
 182. } particular they include all the private servants excluded from Groups 113 to
 183. } 116 inclusive—see particularly the note of Group 114. Group 182 includes
 coachmen, grooms (or syces), private rickshaw-pullers, dog-boys, private milch-cow tenders
 and the like. Group 183 includes drivers and cleaners of private motor-cars; all other
 domestic servants clearly described as such are included in Group 181, except sweepers.
 (All sweepers are in Group 103 wherever employed.) In agreement with the standard schemes
 all except sweepers and punkha-pullers who have designations generally representing
 domestic servants (*e.g.* waterman) but are employed in offices, factories, shops, etc., are
 classified, in accordance with Article 3 of the preface to this Section, in the same group as
 clerks or messengers employed in the same office, factory, shop, etc.; but they have been
 regarded as domestic servants if the place of employment was not indicated. The standard
 schemes follow this rule for punkha-pullers also; but in Burma punkha-pullers whose place
 of employment was not indicated have been assigned to Group 187 as there are very few
 domestic servants specifically employed as punkha-pullers. Group 183 corresponds to a part
 of Group 166 of 1911, the remainder of that group forming now Group 186.

184, 185 } See Articles 4, 5 and 6 of the preface to this Section and the note on
 186, 187 } Group 117. Groups 183 and 186 together correspond to Group 166 of 1911.

188. Prisoners under trial as well as convicted prisoners are included in this group.

191. Only a few persons with definitely described occupations had to be tabulated as
 "other non-productive." A few described as *gambler* are included; they are probably
 persons who set up booths for games of chance at pagoda festivals. The group consists
 chiefly of persons for whom the record was so defective that they could not be classified
 even in Groups 184 to 187. A number of persons shown in the schedules only as
Dependents have been tabulated as dependents in this group for lack of further
 information; a particular instance of this is afforded by approximately 2,400 persons in
 Toungoo district, almost entirely Indians of Peoples IX and X.

SECTION C.—ALPHABETICAL INDEX OF OCCUPATIONS (*Abridged*).

The index below shows only a few occupations for which the discovery of the group
 containing them is likely to be difficult. A complete index of all occupations recorded in
 the schedules would occupy about fifteen or twenty of these pages in double columns, and
 even more if all the various names given to some occupations were separately shown. It
 is believed that with the aid of the explanations of Sections A and B the group-titles them-
 selves will give a sufficiently clear indication of the group which includes almost any
 occupation other than those shown below unless the numbers concerned are negligibly
 small.

In all cases the note in Section B on any group mentioned in this index should be
 consulted.

SECTION D.—VARIATIONS IN BURMA FROM THE STANDARD SCHEME OF 1921.

Some occupations are assigned to different groups in different provinces because they
 are practised under different conditions which alter their essential nature; *e.g.* elephant-
 drivers are assigned to Group 182 in the standard scheme, but in Burma they are assigned

* According to service in which employed; if a sweeper, 103.
 † Koyin are tabulated in Group 166 as *dependents*.

to Group 9b because they are employed not as private servants but in connection with the timber industry. Such variations which really aim at maintaining essential uniformity, and also variations of titles without change of content, are ignored in this Section, which takes account only of differences in the system of the classification. Subject to this reservation each category of the Burma system is equivalent to the category of the standard scheme of the same grade and serial number unless the contrary is stated below.

Sub-class I of the standard scheme, with the title *Exploitation of Animals and Vegetation*, is represented in Burma by the three Sub-classes 1a, 1b and 1c.

Order I of the standard scheme with the title *Pasture and Agriculture* is represented by Orders I, IIA, IIB, IIC and IID of the Burma Scheme (Burma Order IIE corresponds to Standard Order II). For the separate parts into which Order I is divided in the standard scheme the relationships are as follows:—Groups 1 and 3 of Order I (a), *Ordinary Cultivation*, are equivalent to Burma Order I; while the remainder of Standard Order I (a)—that is Groups 2, 4 and 5—and Standard Order I (b) together constitute Burma Order IIA; Standard Orders I (c), I (d) and I (e) are equivalent to Burma Orders IIB, IIC and IID respectively.

Order II of the standard scheme, *Fishing and Hunting*, corresponds to Order IIE of the Burma Scheme.

Groups.—Each group of the standard scheme of 1921, except Nos. 1 to 7 inclusive, is equivalent to the Burma group of the same serial number, or in cases where two or more Burma groups have the same serial number with different letters affixed, to the sum of all those groups. For Groups 1 to 7 the relationship is as follows:—

Group of the Standard Scheme.		Equivalent in the Burma Scheme.
No.	Title.	
1	Income from rent of agricultural land	Group 1.
2	Ordinary cultivators	Groups 3a, 3b and 4.
3	Agents, managers of landed estates (<i>not planters</i>), clerks, rent collectors, etc.	Groups 2a and 2b.
4	Farm servants	} Group 3c.
5	Field labourers	
6	Tea, coffee, cinchona, rubber and indigo plantations ...	Groups 6b, 6c, 6g, 6h and 6j.
7	Growers of fruit, flowers, vegetables, betel-vine, areca-nut, etc.	Groups 5, 6a, 6c, 6d, 6f and 7.

SECTION E.—COMPARISON OF THE CLASSIFICATION SCHEMES OF 1921 AND 1911.

1. The principal variations of the classification-scheme of 1921 from that of 1911 are:—

(a) All the variations from the standard scheme of 1921 which are shown in Section D above.

(b) Changes in the content of the following categories as detailed in the schedule at the end of this section:—

Classes—All.

Sub-classes—Ia and III to XI inclusive.

Orders *—1, 2, 6, 7, 8, 9, 11, 15, 16, 17, 18, 20, 21, 24, 25, 30, 35, 40 (equal to 41 of 1911), 49, 50, 52 and 53.

Groups—See the schedule below.

(c) The subdivision of certain groups—see paragraph 3 below.

(d) Changes in the serial numbers of some groups—see paragraph 3 below.

(e) Changes in the titles of some categories without other change of their content besides that (if any) noted in items (a) and (b) above—see paragraph 4 below.

2. Minor changes besides the above have been caused by the association of some occupations with different groups, in some cases by direction in the index of occupation-names used in classification, in others unwittingly as a result of the recognition at the time of classification of different aspects of one and the same occupation. Only cases of no numerical significance can fall into the latter class; and it is hoped that all of the former class which have such significance have been included in the schedule below.

* The numbers of Orders are here given in Arabic type for clearness although properly Roman numerals should be used for Orders.

3. Apart from a few cases noted in the schedule below, the groups are ranged in the same serial order in the standard schemes of 1921 and 1911, the parts of each group which has been subdivided being arranged consecutively in the place of the group they replace. As these subdivisions have been separately numbered in the series the numbers of corresponding groups in the standard scheme of 1911 and 1921 are not identical; but as *Orders* of the same serial number in the two schemes are approximately identical, and as the serial order of groups in each *Order* is generally the same, there is no difficulty in identifying corresponding groups by their titles. Those groups which are distinguished by letters added to the same serial number represent subdivisions made in Burma alone of the group of that serial number in the standard scheme, and should be taken together as one unit for such a comparison.

4. Those cases in which the change of the title of a category corresponds to a change of its content (other than a minor change of the kind noted in paragraph 2 above) are noted in the schedule below. Notes on some other cases of a change of title are included in Section B; in other cases the equality will generally be obvious.

Item No.	Orders, Sub-classes and Classes affected, 1921 and 1911.	Groups affected.		Remarks. (Title means the title of the group of 1911 shown in column 4.)
		1921.	1911.	
1	2	3	4	5
1	Orders 1, 11A, XLIX. Sub-classes Ia, VIII, Classes A, C.	1 to 7 inclusive and 176.	1 to 7 inclusive, 144 and 158.	Groups 1 to 7 inclusive include nominally the same occupations in 1921 as in 1911 although the distribution between the groups differs as shown in Section D. But in 1911 the Land Records staffs were divided between Groups 144 and 158 as government servants or surveyors, while in 1921 they have been tabulated in Group 26 (corresponding to Group 3 of 1911) as assistants of Government in its aspect of landowner. See also item 10 of this list and Section B.
2	Orders VI, VII.	36 and 41	28 29 34	Title.—Textile work with hair or bristles, brush-makers, etc. Title.—Persons occupied with feathers. Title.—Furriers.
3	Orders VII, XVI.	40	33 81	Title.—Makers of leather articles, such as trunks, water-bags, etc. Title.—Saddlers, harness-makers, whip and lash-makers.
4	Orders VIII, XV.	45a, 45b and 45c.	37 79	Title.—Basket makers and other industries of wooden material, including leaves (except Group 44 of 1921). The thatchers and builders using bamboo and similar materials are taken from this group to be associated with Group 37 of 1911 in the three groups 45a, 45b and 45c; the remainder of the group forms new Group 89 for which see below.
5	Orders IX, XV	48	39 41 79	Title.—Plough and agricultural implement makers. Title.—Iron workers not in Groups 46 and 47 of 1921, and makers of implements and tools principally or exclusively of iron. Only the locksmiths of Group 79 of 1911 have been transferred to Group 48 of 1921; for the remainder of Group 79 see below.
6	Orders XI, XVII.	59	51 83	Title.—Manufacture of aerated and mineral waters. The ice-makers of Group 83 of 1911 have been taken to Group 59 of 1921 leaving the balance to form Group 93 of 1921.
7	Orders VIII, XV	86 to 89	77, 78 and 79.	These three groups of 1911 included all building industries other than lime-burning and cement-working, and together equal the three groups of 1921, save that thatchers and builders of bamboo houses who were included in Group 79 have been transferred to Group 45c.
8	Order XVII	93	83	Group 83 of 1911 included Group 93 of 1921 and also ice-makers who have been transferred to Group 59 of 1921. (See above.)
9	...	104	...	No corresponding group or order in 1911.

Item No.	Orders, Sub-classes and Classes affected, 1921 and 1911.	Groups affected.		Remarks, (Title means the title of the group of 1911 shown in column 4.)
		1921.	1911.	
1	2	3	4	5
10	Orders XX, XXI, XLV, Sub-classes IV, VII, VIII, Classes B, C.	108 109 111 112 161 176	96 98 144 158	The scheme of 1911 required "Public Works Department officers, etc." to be assigned to Group 158 which corresponds in title to Group 176 of 1921, while their labourers and their contractors and the employees of those contractors were assigned to Groups 96 or 98. The instruction of 1911 was vague and the exact manner of its application is not known; probably the Public Works Department (including engineers, overseers, clerks and peons) was divided in practice between Groups 144 and 158 which correspond to Groups 161 and 176 of 1921. See also item 1 of this list for Groups 144 and 158 of 1911.
11	Orders XXIV, XXV.	121	107	Pawnbrokers have been transferred from Group 122 (otherwise equivalent to Group 107 of 1911) to Group 121.
12	Orders XXX, XXXVI.	127	112 128	Title—Trade in pottery. Title—Trade in building materials. But only trade in bricks and tiles has been transferred to Group 127 of 1921 and the remainder constitutes Group 143 of 1921.
13	Orders XXX, XXXVI.	143	128	See above note on Group 127 of 1921.
14	...	158	..	No corresponding group or order in 1911.
15	...	165, 166, 167	148, 149, 150	The three groups of 1921 are equivalent to the three of 1911, but the distribution amongst the three has changed.
16	Orders XLIX and L.	173 174	156	Nominally the content of Group 156 of 1911 was the sum of Groups 173 and 174 of 1921; but in fact <i>Drawing-masters</i> (and their peons, etc.) were placed in Group 159 and <i>Music Teachers</i> (and their peons, etc.) in Group 160. For 1921 these have been included in Groups 173, 174 under Order XLIX, <i>Instruction</i> .
17	See Column 5 for this entry.	176	158	See items 1 and 10 of this schedule.
18	Orders XVIII, L, Sub-classes III, V, Classes B, C.	177a to e	85 159	Title—Newspaper and magazine managers and editors, journalists, etc. The remainder of Groups 177a to e inclusive, and also <i>Drawing-masters</i> and their clerks, peons, etc., for which see preceding note on Groups 173 and 174.
19	Orders XLIX and L.	178	160	Group 178 of 1921 differs from Group 160 of 1911 by the exclusion of music teachers and their peons, etc. See note on Groups 173 and 174 above.
20	* Orders XL, L, Sub-classes V, VIII, Classes B, C.	179	137	The group has been displaced as a whole without change of content.
21	Order LI, Sub-class IX, Classes C, D.	181	161	(a) Group 161 of 1911 included the occupations of Group 181 of 1921 and also the scholarship-holders who in 1921 are classified as described in the note on Group 177e in Section B above. (b) The group so amended, has been transferred from Class C in which it was included in 1911 to Class D. (c) Classes C and D are affected both by the amendment (a) and the transfer (b); but Order LI and Sub-class IX are affected only by (a).
22	Orders III, LIII Sub-classes X, XI,	184 186	166	Group 186 of 1921 differs from Group 166 of 1911 by the exclusion of private motor-drivers and cleaners separately tabulated in Group 183 of 1921.

* XL of 1921, corresponding to XLI of 1911.

IMPERIAL TABLE XVIII.

Subsidiary Occupations.

- NOTE 1.**—This table furnishes further information relating to those workers who have been shown in Imperial Table XVII as having a subsidiary occupation in addition to the principal occupation according to which they are classified in that table.
- NOTE 2.**—For this purpose principal occupations have been divided into ten sorts and subsidiary occupations into 35 sorts; and workers of each sex have been classified according to the sort of both their principal and their subsidiary occupation.
- NOTE 3.**—The table for females for each sort of principal occupation is on the page succeeding the table for males, and the tables for the ten sorts are arranged in the order shown in Note 4 below. In each table the 35 sorts of subsidiary occupations are arranged in the order of their group-numbers; but in each case the sort of principal occupation is naturally omitted, and the tables for the subsidiary occupations of money-lenders or pawn-brokers, and of grain-dealers are compressed by the combination of unimportant figures into one column headed * for which details are given on page 426.
- NOTE 4.**—The ten sorts of principal occupations for which separate tabulation is given are defined as below in terms of the occupational groups used in Imperial Table XVII. A short title is given for each sort, but this must not be regarded as a rigorous or even adequate definition of the sort, which is defined only by the group-numbers given. The section of the table which comprises the tabulation for each sort is indicated by the letters A to K respectively.

Section of Table.	Name of Sort.	Groups.	Section of Table.	Name of Sort.	Groups.
	<i>Agricultural.</i>			<i>Non-Agricultural.</i>	
A	Landlord	1 and 2a	F	Gardener	5, 6a to 6j inclusive, and 7.
B	Cultivating owner ...	3a	G	Money-lender or pawn-broker.	12a
C	Cultivating tenant ...	3b	H	Wholesale grain-dealer	136a
D	Agricultural labourer	3c	I	Retail grain-dealer ...	136b
E	Taungya cultivator ...	4	K	Others	All groups not in other sorts.

- NOTE 5.**—Of the 35 sorts of subsidiary occupations nine are the same as the first nine sorts of principal occupations and the remaining 26 are subdivisions of the tenth sort (*Others*). In the headings of the columns of the table short names are given for the sorts; but as for the sorts of principal occupations these are not to be regarded as defining the content of the sort, which is defined by the group-number or numbers associated with it in the heading, except in the cases of the last four sorts, numbered 1001 to 1004, and the sort *Toddy-drawer or jaggery-maker*. This last sort is restricted to persons shown in the enumeration-record as palm-climbers, toddy-drawers or preparers of jaggery and so includes all Group 74 and part of Group 71, but omits those of the latter group who are concerned with kyantaga or dhani-th'gya and not with toddy palms or jaggery. No. 1001 *Durwan or feen* includes all for whom one of these descriptions alone was given without any indication of the group to which they properly belonged, and Nos. 1002, 1003 and 1004 are remainder-sorts.
- NOTE 6.**—The sorts of subsidiary occupations included in the column headed *Total Agricultural* are those distinguished as agricultural in Note 4 above, and include exactly the occupations defined as agricultural in Imperial Table XVII, Part I, Section A, Article 3.
- NOTE 7.**—The whole of Part I of Imperial Table XVII applies to this table unless the contrary is indicated by the above Notes.
- NOTE 8.**—The figures tabulated for the Rangoon Town District represent also Rangoon Town, as for the purposes of the Imperial Census Tables these areas are continuous.

NOTE 9.—The separate figures which are given for Mandalay City are included in those for the Mandalay District which are shown immediately above them.

NOTE 10.—A supplement to this table is given as Imperial Table XIX in which a converse tabulation is given of the principal occupations with which five selected sorts of occupations are associated as subsidiary occupations.

NOTE 11.—In the corresponding table of the census of 1911 in Burma and of the census of 1921 in other provinces the term *Rent-receiver* is used to mean a person with an occupation of Group 1 as that group is defined in Imperial Table XVII. Similarly the term *Rent-payer* is used to correspond to the sum of Groups 3a, 3b and 4; and *Farm-servants and Field-labourers* (or in some provinces *Agricultural labourers*) to correspond to the sum of Groups 2a and 3c. As no persons of Group 2a in Burma reported a subsidiary occupation either in 1911 or 1921, Section A of this table gives the subsidiary occupations of *Rent-receivers*, and Sections B, C and E together give those of *Rent-payers*, while Section D gives those of *Farm-servants and Field-labourers*.

APPENDIX TO IMPERIAL TABLE XVIII.—*Provincial totals for the separate sorts of subsidiary occupations included in the columns headed * in Sections G, H and J of the Table.*

IMPERIAL TABLE XIX.

Supplement to Imperial Table XVIII—Subsidiary Occupations.

NOTE 1.—This table is prepared in five sections A to E, each of which shows the principal occupations of persons who have for their subsidiary occupation one of the occupations which is shown for that section in the following list:—

SECTION A—Landlord or land-agent (Groups 1 and 2a).

SECTION B—Money-lenders or pawn-brokers (Group 121).

SECTION C—Grain-dealers (Wholesale or retail—Groups 136a and 136b).

SECTION D—Silk-weavers (Group 35).

SECTION E—Cotton-weavers (Group 27).

The occupations represented by each of these titles are all the occupations of the occupational-group or groups noted against it; for the full content of any group Imperial Table XVII should be consulted.

NOTE 2.—The principal occupations tabulated are similarly described by short titles, each of which must be understood to include all the occupations of the occupational-groups indicated by the number prefixed to it. The meanings of the headings which have no group-number noted against them are as follows:—

Forestry or Wood.—All occupations of Orders IIb, VIII, XXVIII and XXXVIII as defined in Imperial Table XVII.

Toddy or jaggery.—All toddy climbers and makers of jaggery, but not makers of kyantaga or other sweetmeats (Group 74 and part of Group 71. See Note 5 of Imperial Table XVIII).

Various remainder classes, e.g., Others, Other Traders.—For each section of the table these must be interpreted in accordance with the other principal occupations tabulated for that particular section.

NOTE 3.—The section of the table corresponding to each subsidiary occupation thus reproduces the figures corresponding to that subsidiary occupation in each part of Imperial Table XVIII, in each case expanding those of the last part of that table (*Other principal occupations*) to show separate figures for those principal occupations which make any considerable contribution to them.

NOTE 4.—The principal occupations included under the term *Agricultural* are those defined as agricultural in Imperial Table XVII, Part I, Section A, Article 3.

NOTE 5.—The whole of Part I of Imperial Table XVII applies to this table unless the contrary is indicated by the above Notes.

NOTE 6.—The figures tabulated for the Rangoon Town District represent also Rangoon Town, as for the purposes of the Imperial Census Tables these areas are conterminous.

NOTE 7.—The separate figures which are given for Mandalay City are included in those for the Mandalay District which are shown immediately above them.

IMPERIAL TABLE XX.

Occupations by Race.

NOTE 1.—This table takes account only of principal occupations. In Part I the population associated with each class or sub-class of occupations in Imperial Table XVII is classified by *Peoples*, the statistics being given in each case for the whole province and for selected *Natural Divisions* (which are defined in Note # below). Part II gives in a similar statement the numbers of each people associated with selected occupational orders and groups. Part III gives for all occupational sub-classes and orders a similar statement which has however been contracted by combining the 13 peoples into 8 racial divisions and shows only the total figures for the whole province in each case. Parts I and III may also be regarded as giving a classification of each people by principal occupation.

NOTE 2.—The titles given to the *peoples* in the column-headings of the table are only rough indications of their racial compositions which are fully shown in the appendices A and B which follow Part III of the table (page 448). Reference may also be made to Parts IV and V and Note 9 of Imperial Table XIII.

NOTE 3.—The titles of the classes, sub-classes, orders and groups of occupations are explained in Part I of Imperial Table XVII, as also are the terms *Worker* and *Dependent*. The columns headed *Total Supported* show the sum of workers and dependents of both sexes.

NOTE 4.—The *natural divisions* by which statistics are given in Parts I and II are named the *Burman, Chin, Salween, Shan*; and the Burman division is divided into four natural subdivisions called *Delta, Coast, Centre* and *North*. Further particulars of the natural divisions are given in Part II of the Introduction to the report volume. The districts and states included in each of the natural divisions and subdivisions are as follows:—

IMPERIAL TABLE XXII-A.

The Special Industrial Census (All Industries).

NOTE 1.—The statistics of this table have been obtained from the schedules of the Special Industrial Census, which was quite distinct from the ordinary census and related to all Industrial Establishments which employed 10 or more persons. For further particulars Chapter XIII of the Report Volume should be consulted.

NOTE 2.—All establishments have been classified in Groups A, B, C.....of classes of industries which are distinguished in each group by serial numbers. Column 1 of Part I of the table shows the classes included in each group. Some establishments practise more than one kind of industry, *e.g.*, many rice mills saw timber.

NOTE 3.—The table is presented in four principal parts as follows:—

Part I.—Classification of all Industrial Establishments and of the persons employed in them.

Part II.—Distribution by districts of the statistics in Part I of the table.

Part III.—Power used in Industrial Establishments.

Part IV.—Looms in textile establishments.

NOTE 4.—Part III is further subdivided into three parts as follows:—

Part IIIA.—Power in establishments deriving it directly from Steam, Oil, Gas or Water.

Part IIIB.—Power in establishments using electric power generated on their premises.

Part IIIC.—Power in establishments using electricity supplied from outside.

An establishment which uses more than one source of power coming under Part IIIA of the table is entered in columns 3, 4 and 5 of that table once for each source, and if in addition electric power is generated on the premises it will be entered one or more times in columns 4 to 7 of Part IIIB.

Engines which are used principally to drive the characteristic machinery of an establishment but are also coupled to dynamos when electric current is required are entered only in Part IIIA and are not shown again in columns 4 to 7 inclusive of Part IIIB; the entries in those columns thus relate to engines used for no other purposes than to drive dynamos.

All the power represented in Part IIIC is included already in Part IIIB under Group P for Mandalay or under Group Q. Some of the establishments shown in Part IIIB have electric motors which are shown nowhere in the table.

As many managers of establishments are unable to describe correctly the engines and dynamos which they use, the whole of Part III is particularly liable to error although a very large number of references have been made to managers to get corrections of doubtful records.

NOTE 5.—For the definition of *Skilled Occupations* see the appendix at the end of Part IV of the table.

NOTE 6.—The term *Home Races* includes all Indigenous and Indo-Burman Races, that is races of Groups A to O inclusive and also of Group S of Imperial Table XIII. It differs slightly from the sum of Peoples I to IV and VI by including Mahomedans of indigenous races and those Zerbadis who are neither Mahomedans nor Buddhists (see the appendices to Imperial Table XX). The number amongst those tabulated under *Others* who are not Indians has not been tabulated; for both Skilled and Unskilled Labourers it is either *nil* or negligibly small.

NOTE 7.—Armenians are included under the description *European* for the purposes of this table.

NOTE 8.—The Group *Age under 14* includes all who have not completed 14 years of age; the group *Age 18 or over* includes all who have completed 18 years of age or more.

NOTE 9.—All the owners, directors and managers of the establishments shown in the table are British subjects except as shown in the footnotes of Part I of the table.

NOTE 10.—Imperial Table XXIIb gives further statistics for a selection of the most important industries shown in this table.

IMPERIAL TABLE XXII-B.

The Special Industrial Census (Selected Industries).

NOTE 1.—This table supplements Imperial Table XXIIA by giving further statistics for the specially important groups or classes of industrial establishments which are listed in column 1 of Part I of the table.

NOTE 2.—The table is in three parts as follows :—

Part I.—Ownership and management of establishments.

Part II.—Classification and birthplaces of labourers.

Part III.—Duration of residence in Burma of labourers born outside Burma.

Part II is in eleven sections dealing with skilled and unskilled labourers in the classes indicated by the titles of the sections. Part III is also subdivided into two parts IIIA and IIIB for males and females respectively.

NOTE 3.—All the owners, directors and managers of the establishments shown in Part I of the table are British subjects except as indicated in the footnotes of Part I of Imperial Table XXIIA.

NOTE 4.—The term *Home Races* includes all Indigenous and Indo-Burman Races, that is races of Groups A to O inclusive and also of Group S of Imperial Table XIII. It differs slightly from the sum of Peoples I to IV and VI by including Mahomedans of indigenous races and those Zerbadis who are neither Mahomedans nor Buddhists (see the appendices to Imperial Table XX).

NOTE 5.—In column 16 of Part I of the table under the heading *Chinese and Others* all the figures relate to Chinese except the one establishment shown for Class F2. Similarly in column 23 for all except 3 of Class K3 with power and 1 of Group P with power. Column 9 includes only Chinese.

NOTE 6.—Armenians have been regarded for this table as Europeans.

NOTE 7.—The complete list of races used in the tabulation in Part II of the table is shown in Section 2 of that part. The terms *Other Hindustanis*, *All other Mahomedans*, *All Others* and all other terms used in Section 2 of Part I have the same meaning throughout the table. In particular the term *Burmese* includes Tavoyans, Merguese, Yanbye, Chaungtha and non-Mahomedan Arakanese but not Arakan-Mahomedans nor Zerbadis.

NOTE 8.—For the definition of *Skilled Occupations* see the appendix to Imperial Table XXIIA on the last two pages before this.

NOTE 9.—The group *Age under 14* includes all who have not completed 14 years of age ; the group *Age 18 or over* includes all who have completed 18 years of age or more.

NOTE 10.—Persons under 18 years of age have been excluded from column 9 in Part II of the table ; they are few and their number is shown in Subsidiary Table IV of Chapter XIII of the Report volume.

NOTE 11.—Labourers are classified in Part III as *Permanent Residents* if they stated at the time of enumeration that they intended to make their home in Burma for the rest of their lives. The number of years of residence shown is the number of completed years.

PROVINCIAL TABLE I.

Area and Population of Townships, States and Hill-Tracts.

NOTE 1.—Numbers added in brackets after the names in column 1 of the table are references to the notes below bearing those numbers.

NOTE 2.—The term *town* in column 3 connotes only towns defined as such under the Burma Towns Act and differs therefore from the term *Census town* used in Imperial Tables I, III, IV and V. Note 3 of Imperial Table IV and column 3 of Imperial Tables IV and V indicate the relationship of the two meanings.

NOTE 3.—For the Hill District of Arakan, the Pakōkku Hill-Tracts, the Chin Hills district, the Eastern States and all hill-tracts included in other districts the figures given in column 4 represent *villages*. For other areas there is no record of the total number of villages available; column 4 for these areas (except Putao district) shows *village-tracts* and not villages. A village-tract is defined by law as the local area under the jurisdiction of a headman, including a village or group of villages and adjacent lands. In practice it may include no true village at all but only a number of small clusters of houses scattered through a comparatively extensive area. On the other hand a village may be shared by two or more village-tracts, some of which may include parts or wholes of other villages. On account of numerous recent revisions of village-tract boundaries in some townships the numbers given in column 4 must be regarded only as close approximations for the early part of the year 1922. For Putao district see the foot-note added to the entry.

NOTE 4.—No entry for villages has been made in column 4 for the Somra Tract (item No. 208) or East Manglūn (item No. 236) which are two of the areas in which the census was made by estimate only. Totals for all areas including these are affected accordingly. The third area in which the census was by estimate was the part of the Pakōkku Hill-Tracts represented by item No. 141 for which however all columns except column 6 have been filled.

NOTE 5.—No town as defined for this table can include the whole or any part of a village-tract; for this reason the number of village-tracts shown in Imperial Tables I and III differs from that shown in this table which is in each case the correct number of statutory village-tracts as nearly as that could be determined.

NOTE 6.—Columns 5 and 6 do not relate to village-tracts but to villages in the sense of continuous blocks of residences within a single village-tract. For these columns the divisions of a continuous block of residences made by a village-tract boundary crossing it are regarded as separate villages. *Town* has for these columns also the meaning given to it in Note 2 above.

NOTE 7.—The definition of a house on which the numbers in columns 5 to 7 depend was ordinarily as follows:—

A *house* means the separate residence of a family. A residence is considered to be separate when it has a separate entrance from a common way.

If one building is jointly occupied by two or more families it should be treated as one house if the families share meals, but as two or more if they cook and eat separately.

Monasteries, Zayats, Schools, Godowns and Field Huts and all other buildings are to be included in the term "House" if used as dwelling-places, whether used at night or not. They must always be included if a watchman or durwan lives there.

In Rangoon Town and occasionally in other towns *house* was taken to mean a tenement; and this definition was generally substituted for the ordinary one for lodging-houses and coolie-lines and similar cases. Amongst some tribes in which there is a custom of building extensions of a house for all descendants of the original householder, the term *house* was generally taken to mean the residence of the whole group of relations; this variation from the normal definition would only affect the figures in a few remote areas.

NOTE 8.—Adjustments of population have been made throughout so as to give in column 11 the population in 1911 of the area which was included at the census of 1921 in the township or other administrative unit named in column 1, and in column 12 the rate of variation for that area. For districts a similar adjustment has also been made for the population in 1901, so that the figures of column 13 also relate to the area included in each district in 1921. No such adjustments however have been made for the population of townships in 1901; the figures given for townships in column 13 represent, therefore, the variation of population in the period 1901 to 1911 found in 1911 for the area which at the time of the census of 1911 was included in the township named in column 1. In some cases where that unit has been newly formed since 1911 and differs greatly from any similar unit existing then, column 13 has been left blank. For the purposes of this note the Northern Shan States, the Southern Shan States and Karenni are to be regarded as three districts, while the states included in them are to be regarded as townships.

NOTE 9.—The following items in the table include areas in which no census was made in 1911, and for which therefore the figures of columns 8 and 11 are not strictly comparable:—

Totals for all areas which include these areas are effected by this extension of the census if comparison with the census of 1911 is made. In calculating the figures for column 12 of the table the above figures have first been deducted from the 1921 figures.

NOTE 10.—The number of square miles given for Rangoon Municipality excludes the area covered by the rivers and lakes and thus differs from the statement of 27.97 square miles which was adopted for the corresponding table of 1911, although it represents the same area of habitations. The area covered by water has been added to that of the Port in column 2.

NOTE 11.—Some of the entries for area given in column 2 of the table (especially for units which lie along the inland boundary of the province) include estimates or approximations reached by rough surveys, and in some such cases revised figures have been adopted since the census of 1911. In some other cases area-figures, although based on complete survey, have been changed by a revision of the survey or as a consequence of erosion or accretion by rivers. Some district or township boundaries and areas have been changed since 1911 by the transfer of land which in some cases had no population in 1911.

NOTE 12.—An effort has been made to get the account of changes in townships and districts which is given in Notes 13 to 19 below as complete as possible; and it is hoped that any omissions are insignificant.

NOTE 13.—In the following districts there was no change in township names or boundaries between the census of 1911 and that of 1921:—

- (1) Akyab, (2) Hill District of Arakan, (3) Kyaukpyu, (4) Sandoway, (15) Pyapôn, (17) Salween, (20) Tavoy, (27) Mandalay, (32) Shwebo, (33) Sagaing.

NOTE 14.—In the cases shown in the margin the name of a township shown in one district in the table of 1911 has been shown under a different district in 1921. The Karenni States are also shown separately in this table instead of being shown as parts of the Southern Shan States.

NOTE 15.—In the Upper Chindwin District (No. 35) the name of township No. 204 has been changed from Kindat to Mawlaik without a change of boundaries.

NOTE 16.—The following are new names in the table which represent townships formed since 1911 by re-arranging boundaries of townships existing in 1911:—

District.		Township.	District.		Township.	District.		Township.
7	Hantha-waddy.	{ Kungyangôn N. Kungyangôn S. Syriam.	8	Tharra-waddy.	{ Letpadan East. Letpadan West. Minhla East. Minhla West. Zigôn.	13	Myaungmya	Labutta.
11	Bassein	{ Bassein East. Bassein West.			{	19	Amherst ...	Kya-in.
						22	Thayetmyo	Sinbaungwè.

NOTE 17.—No townships of the corresponding table of 1911 have been simply divided into two townships without other change of boundary.

NOTE 18.—The Bassein township, which was included in the table of 1911, does not appear in this table because it has been shared (with other areas) by the Bassein East and Bassein West townships (Nos. 54 and 55). Similarly the Sinbo Kachin Hills are now included in the Myitkyina Kachin Hills (No. 158) and the Namkhai State in the Loilong State (No. 274).

NOTE 19.—The townships, states and tracts shown in the following list have suffered a change in boundary in the interval between the census of 1911 and that of 1921 without a change of name:—

NOTE 20.—There is some difficulty about the figures in column 21 for the Somra Tract and for Thaungdut State which are items Nos. 208 and 210 of the table. It was originally stated that the whole Somra Tract had been omitted from the 1911 census, but later it was reported by the local officers that an area which was transferred to the tract from Thaungdut State in 1920 had been censused in 1911 as part of that state and had a population of 259. Meanwhile Note 8 of Imperial Table II, Note 9 of this table and other statements had been prepared in which the whole population estimated in the Somra Tract was associated with the extension of the census area to include that tract. The number of 259 involved is negligible for all purposes except the calculation of the variation of population in Thaungdut State. Accordingly the whole of the Somra Tract has been uniformly regarded as an extension of the census area throughout the census report, except in this table, where the 259 persons of 1911 have been entered for the Somra Tract so as to maintain the correct total for the Upper Chindwin district while still giving correct figures for Thaungdut State in 1911.

* Increase due to extension of census area excluded in calculating the figure.

† In 1911 Prome township consisted only of Prome town; in 1921 it included so much rural area that the entry of any figures for the 1911 area would be misleading.

* Omitting East Manglun.

† Allowing for extension of Census Area.

‡ The separate 1921 figures for Kalaw are not available; they were chiefly included in those given for Hsu Mong Hkam State in the Western Subdivision, but some were also included in the Yamethin District.

** Known to Burmese as Thumakan.

† Includes the Ngadaung tract separately listed in 1911 and also Mong Leng.

‡ Includes Kokang Circle separately listed in 1921.

PROVINCIAL TABLE II.

Population of Townships, States and Hill-Tracts Classified by Religion.

NOTE 1.—All totals given in this table for parts of the province which include either the Pakókku Hill Tracts, the Upper Chindwin district, or North Hsenwi of the Northern Shan States differ from the corresponding totals in Provincial Table I by the omission of figures for the area in which in the census was only an estimate of the total population and no classification by religion could be effected. These areas are shown with their total populations in Provincial Table I as items Nos. 141, 208 and 236.

NOTE 2.—The figures given for Christians in this table include all who follow the Christian religion and also all those members of Christian races who do not individually follow that religion. The total of the latter for the province is 45 males and 20 females, of whom 15 and 16 respectively are Buddhists; the distribution of these by religion and district is given in Note 3 of Imperial Table VIA.

NOTE 3.—Details of *Others* by whole districts are given in Imperial Table VIA.

NOTE 4.—Notes 9 and 13 to 19 inclusive of Provincial Table I apply also to this table if comparison with the corresponding table of 1911 is instituted.

NOTE 5.—A table in the same form as this, but giving particulars for each village-tract in the district, is included in the B volume of the gazetteer of each district.
